Customising/Specifications.

More than freedom.

Freedom isn’t just about where you can go.
It’s about how you feel along the way.
About having the space to live your life,
the confidence to go further and the
technology to make every journey effortless.
Compact on the outside and remarkably
spacious within, IONIQ 3 is designed around
the moments that matter most.
Because true freedom isn’t measured in
kilometres – it’s measured in possibilities.

OF HY321E
Form follows freedom.

Timeless from every angle.

Inspired by the strength and formability of steel, IONIQ 3 expresses Hyundai’s Art of Steel design philosophy. Clean surfaces, precise intersections and balanced proportions create a confident presence that feels bold and enduring. Rather than following trends, every line is shaped to stand the test of time.

Shaped by the wind.

Class-leading coefficient of drag (Cd) 0.263

For the standard model with 16" wheels.

Low drag. High range. In the EV era, air resistance is more important than ever. IONIQ 3's Aero Hatch silhouette combines sporty proportions with exceptional aerodynamic performance, proving that great design and outstanding performance can go hand in hand. Less drag means greater efficiency, a smoother drive and more kilometres from every charge, while helping make everyday journeys feel more effortless.

Parametric Pixel Signature.
The distinctive four-pixel Morse code for the letter “H” gives IONIQ 3 an unmistakable identity, day and night.

Vision Roof.
The optional Vision Roof floods the cabin with natural light, enhancing the feeling of spaciousness for everyone on board.

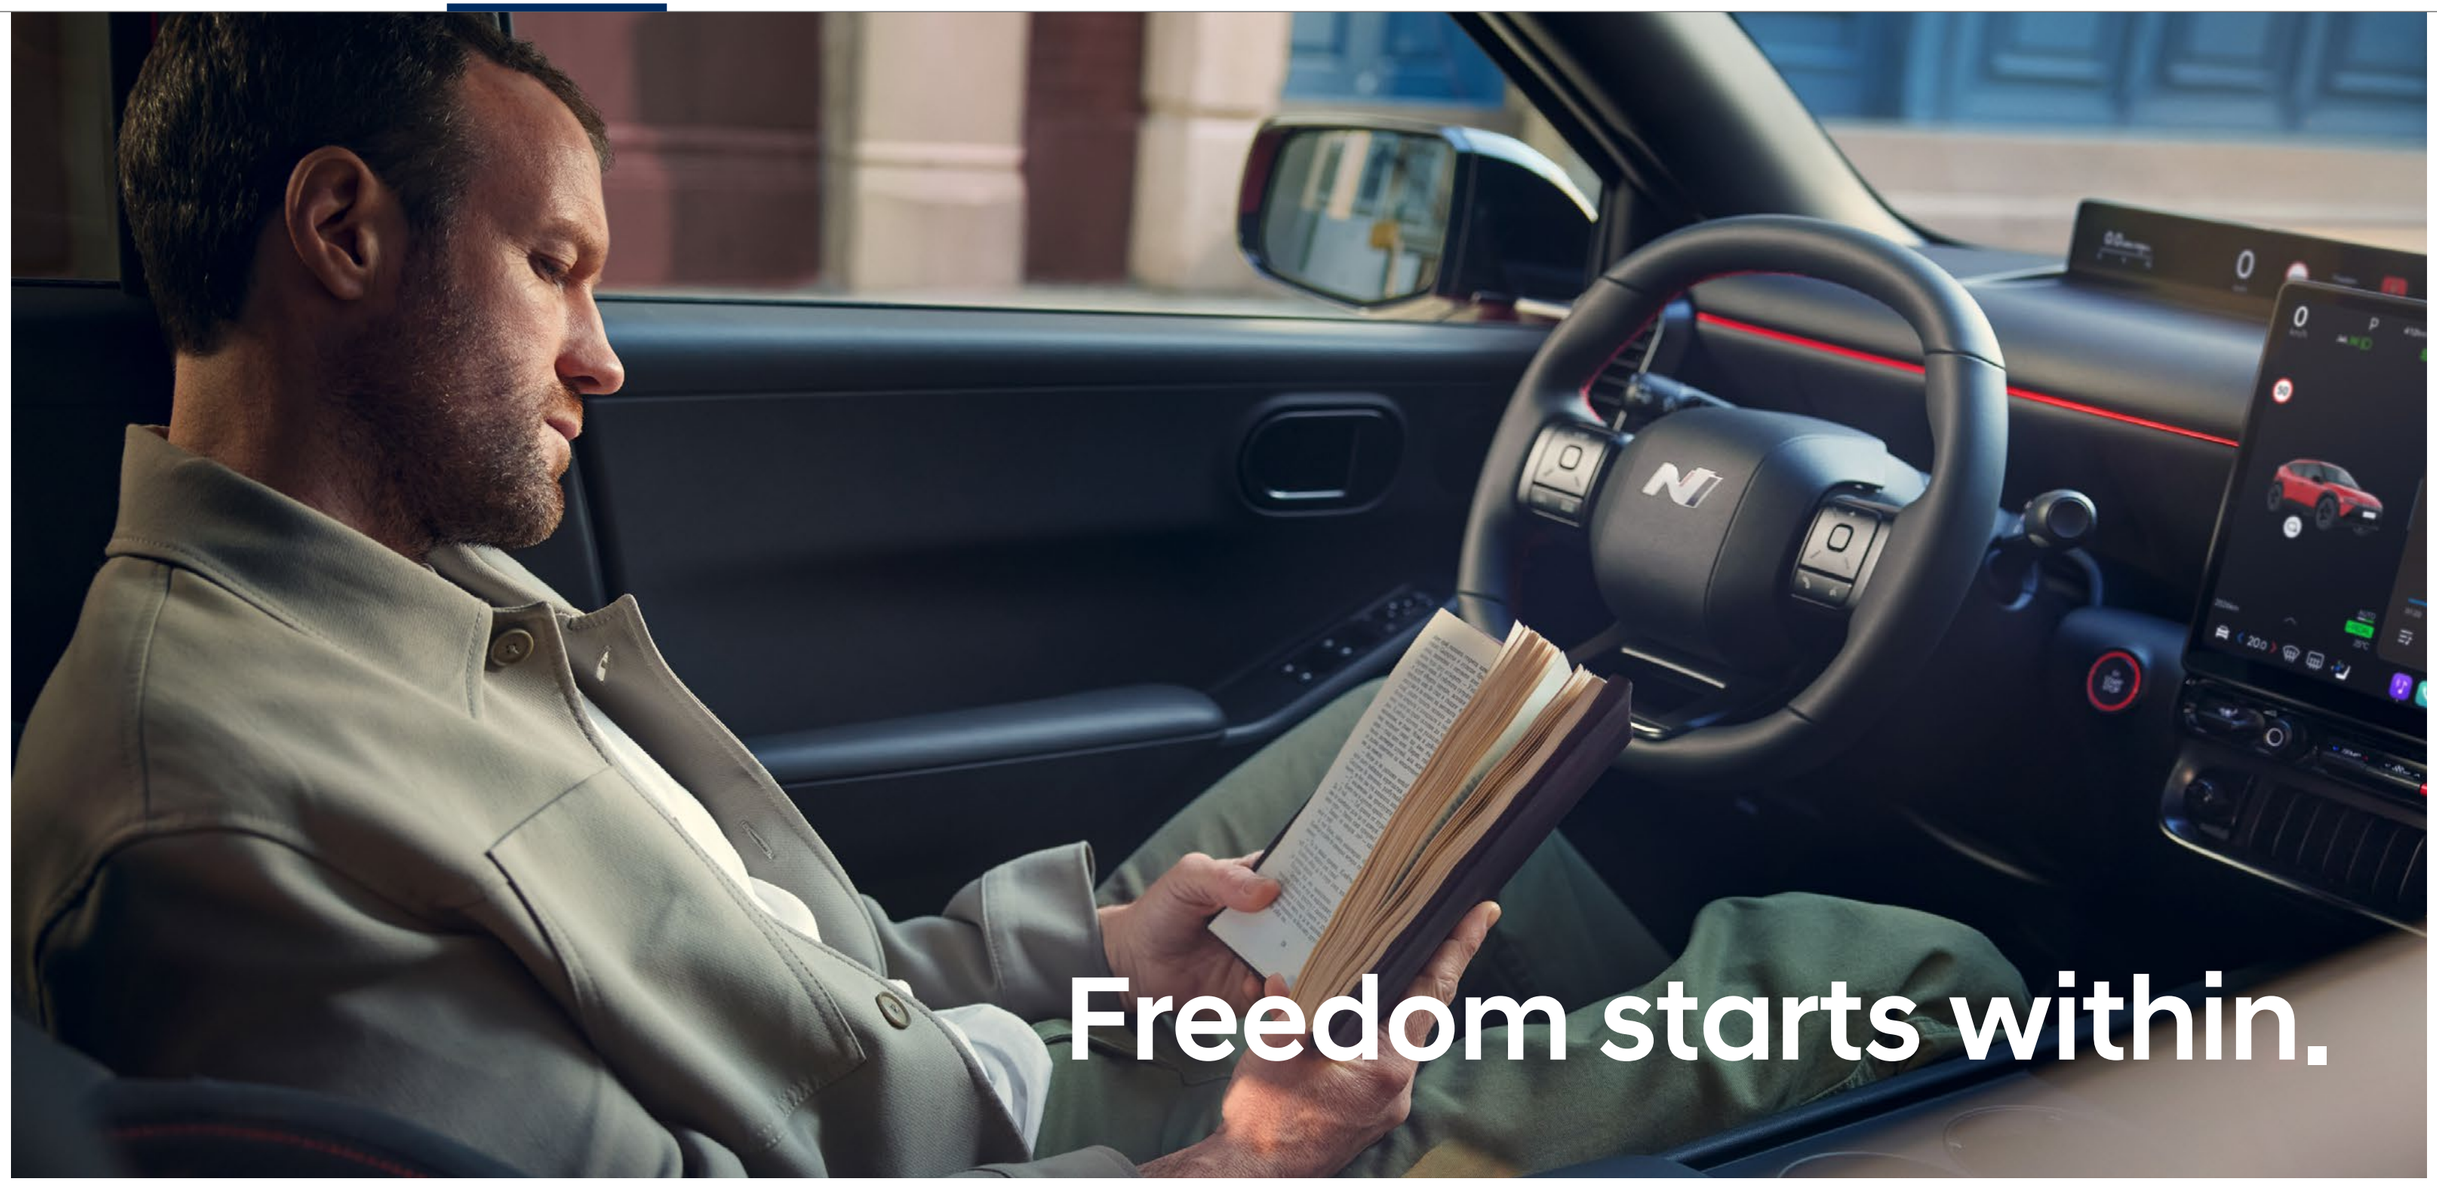

Click for more information.

Two-tone concept.
A balanced two-tone appearance with contrasting elements emphasises the vehicle’s sleek proportions and aerodynamic stance.

Freedom starts within.

Room to be yourself.

Compact on the outside. Surprisingly spacious within. Upper-segment roominess ensures lasting comfort for everyone on board. The Open Bridge Console keeps everyday essentials within easy reach, while the slim digital cluster places key information directly in the driver's line of sight above the multifunction steering wheel.

Room for company.

Five real seats.
The IONIQ 3 offers generous space for five adults, with three passengers able to sit comfortably side by side in the rear, enjoying impressive headroom despite its compact exterior dimensions.

The versatile 60:40 split-folding rear seats also make room for bulky items whenever needed.

Room for more.

Hidden Megabox. Extra space.
With an impressive 119 litres of additional storage, the Megabox is deep enough to fit a full-size cabin trolley or a large travel bag. It's ideal for charging cables, outdoor gear or safely storing valuables out of sight.

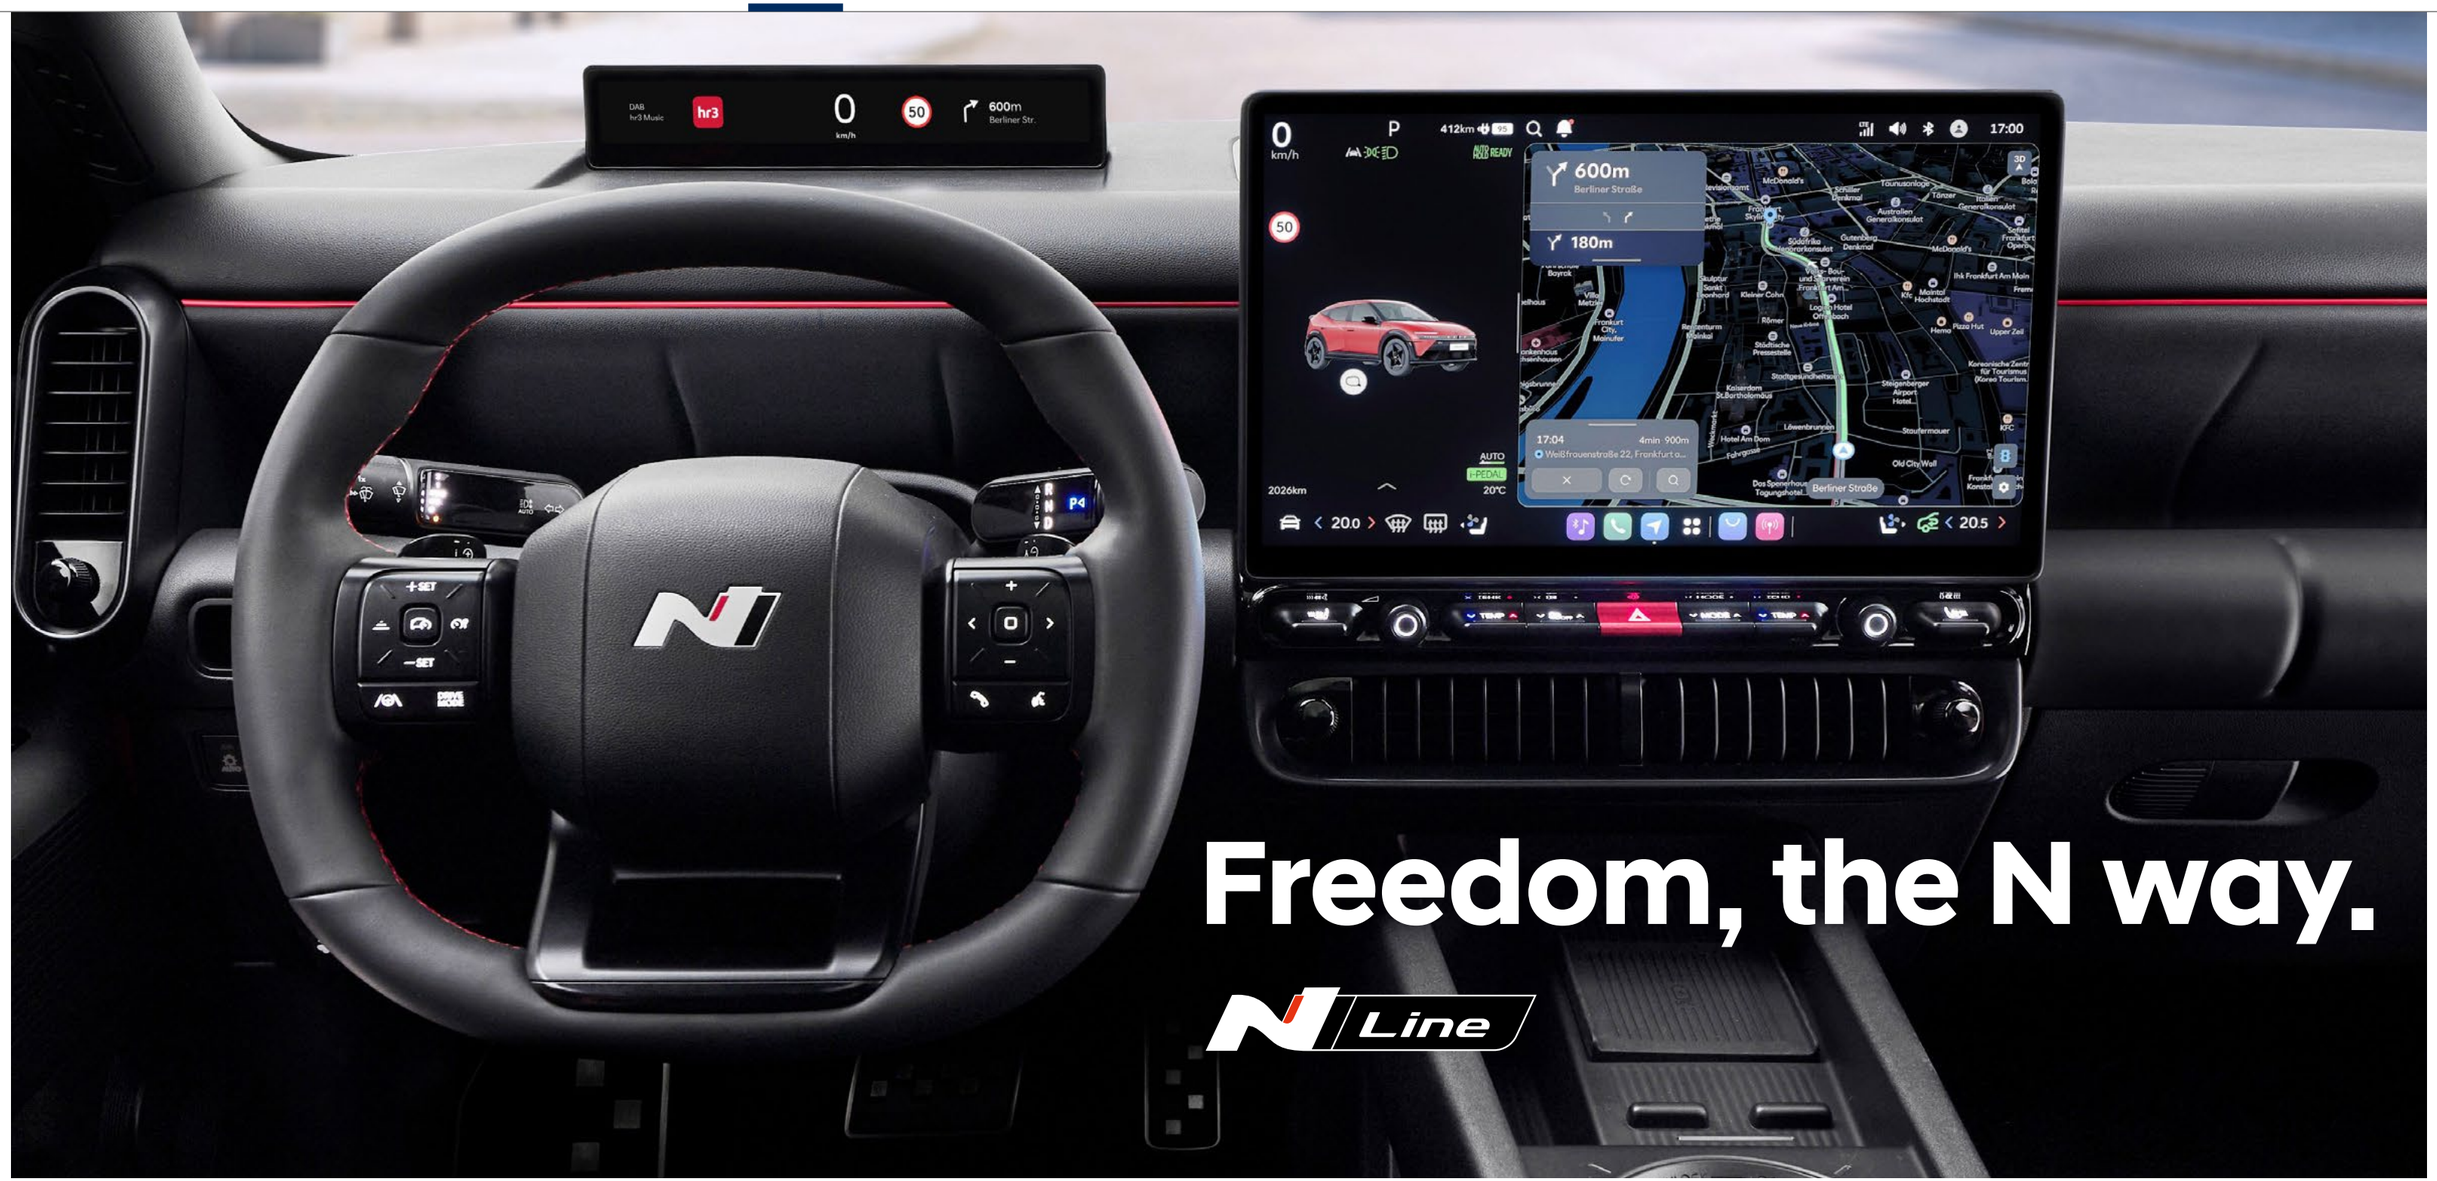

Smart trunk. Easy loading.
The practical, square-shaped 322-litre luggage compartment – with a total capacity of 441 litres including the Megabox – is easy to load and gives you more freedom for bigger journeys and spontaneous getaways.

The optional Vision Roof brings expansive views to every seat, while an electrically operated sunshade keeps the cabin comfortable whenever you need it.

Freedom, the N way.
N Line

N Line exterior.

IONIQ 3 is also available as N Line, adding exclusive styling details to its distinctive design.

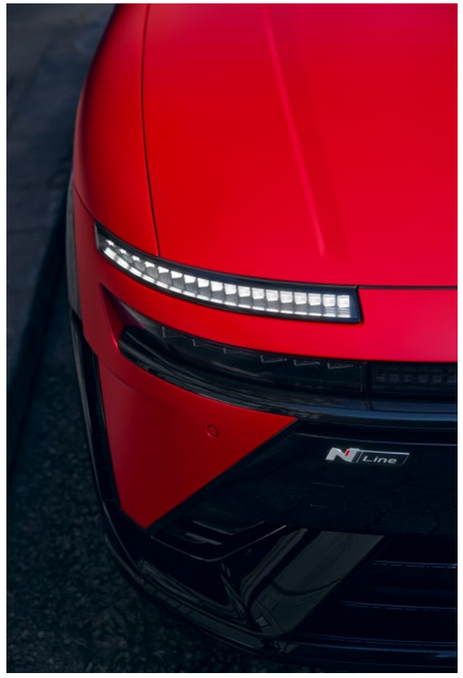

Front bumper.
Enlarged lateral air intakes for battery cooling and integrated air curtains for improved aerodynamics.

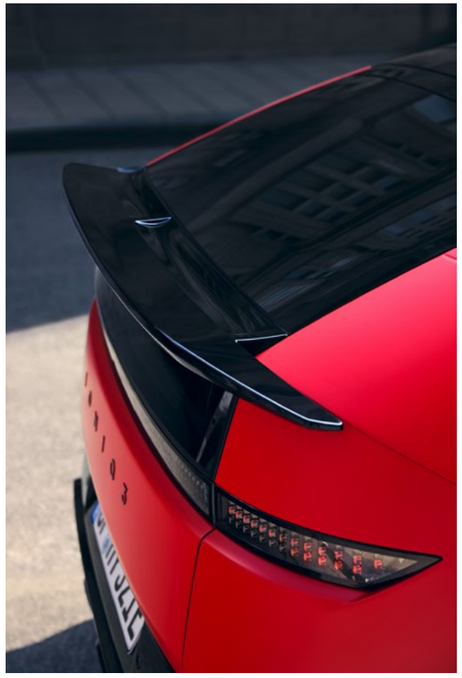

Rear bumper.
Aerodynamic diffuser with sharp side fins and bold red accents, creating a sporty profile.

N Line badges.
Subtle branding at the front and rear.

Rear spoiler.
Extending the streamlined roofline.

Gloss black cladding.
Strong visual contrast highlighting clean body surfaces.

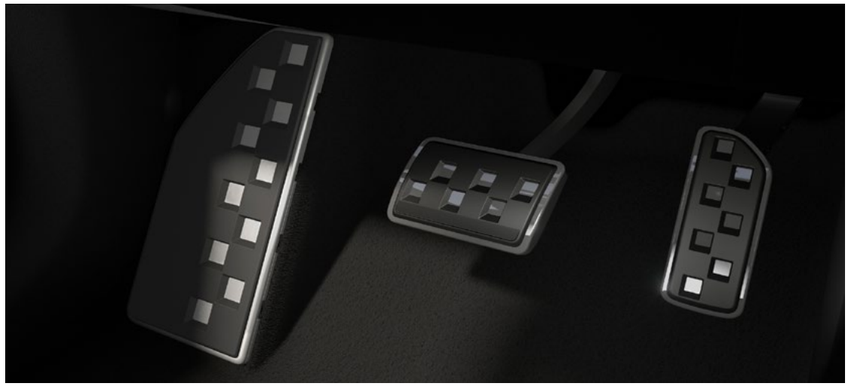

N Line interior.

The N Line interior combines everyday comfort with sporty design details.
A perforated leather N Line steering wheel, brushed metal pedals with slip-resistant rubber inserts and a black headliner create a focused, cockpit-inspired atmosphere.

N Line interior.

Sport seats.
Contoured seat bolsters, embossed N logos and distinctive upholstery.

Red accents.
Red contrast stitching and exclusive N Line fabric details.

Rear seats.
Matching seat design extending the N Line character throughout the cabin.

Everyday freedom.

Comfort comes naturally.

Relaxation Seats, heating and ventilation are available to enhance comfort on every journey. Multiple electric seat adjustments allow you to tailor your seating position, whether commuting, charging or travelling longer distances.

Vehicle-to-Load (V2L).
Simply plug in your laptop or e-bike to charge them, just like at home. There's a 230 V socket located in the boot as well as a converter that plugs into the exterior charging port, which provides up to 3.6 kW of power to run any appliance – even when the vehicle is turned off.

BOSE® Premium Sound System.
Whether you're commuting or heading off on a weekend escape, the optional BOSE® Premium Sound System delivers rich, balanced sound through eight precisely tuned speakers for an immersive listening experience.

Utility Mode.
Enjoy the comfort of your IONIQ 3 while parked. Utility Mode powers the climate control, infotainment, lighting and charging ports from the high-voltage battery, creating a comfortable space to relax, work, or recharge.

Smarter, more connected driving.

The IONIQ 3 is the first Hyundai model in Europe to introduce Hyundai's next-generation digital ecosystem. Enabled by Bluelink connectivity, Pleos Connect brings together intelligent navigation, AI-powered assistance, apps and digital services in one seamless experience. Personalised and ready to evolve over time.

Pleos Connect.
An intuitive in-car experience bringing together navigation, entertainment, vehicle information and connected services.

Gleo AI.[1]
Your intelligent in-car assistant. Use voice commands to navigate, find information and control selected vehicle functions.

Pleos App Market.
Download apps and digital services directly to your vehicle, with new content expanding your experience over time.

Pleos Connect.
Infotainment, navigation and digital services.

Designed around the way you drive, Pleos Connect brings navigation, vehicle information, entertainment and connected services together in one intuitive interface. Powered by Bluelink connectivity, live information and online services are always within easy reach.

Navigation made for electric driving.
Plan your journey with charging stops automatically added along the route. Real-time charging information helps you reach your destination with confidence.

Always up to date.
Monthly online map updates[2] and regular software enhancements help keep your navigation accurate and your Pleos Connect experience continually evolving over time.

Entertainment on board.
Access music, video and gaming apps directly through the Pleos App Market.[3]

myHyundai.
Connected beyond the driver's seat.

The myHyundai App keeps you connected to your IONIQ 3 wherever you are. Powered by Bluelink, it gives you remote access[2] to key vehicle information, EV features and selected vehicle functions directly from your smartphone.

Comfort from anywhere.
Set the vehicle temperature before you leave with remote climate control, so your IONIQ 3 is ready whenever you are.

EV confidence at a glance.
Plan journeys including charging stops, send destinations directly to your IONIQ 3 and monitor charging remotely, all from one convenient app.

Your IONIQ 3, always within reach.
Access a wide range of remote functions, including find my car, door lock and unlock, battery conditioning and more, directly from the myHyundai App.

Download on the App Store | GET IT ON Google Play

Click to discover more.

Use your smartphone or Apple Watch to lock, unlock and start IONIQ 3.

Now you can leave your car key at home, because Hyundai Digital Key 2 is part of our innovative Bluelink Connected Car Services.
For more convenience, IONIQ 3 can be locked, unlocked and started via smartphones, Apple Watch and Google Pixel Watch 3 and Pixel Watch 4. You can also easily share Hyundai Digital Key 2 with up to 15 additional smartphones, allowing your family and friends to enjoy access to the vehicle after saving it in their phone's wallet. When sharing your key, you can even customise the level of access each person receives, ensuring full control and peace of mind.+

Hyundai SmartSense

Hyundai SmartSense

Remote Smart Parking Assist (RSPA).
Enjoy easy parking in tight spots. From outside the vehicle, you can move the IONIQ 3 forward and backward using the Smart Key buttons or, in legally compliant regions, via the myHyundai App with a paired Hyundai Digital Key 2.◊

Memory Reversing Assist (MRA).
When manoeuvring in tight spaces, the system stores the vehicle's path for up to 50 metres and can automatically steer back along the same route in reverse, while the driver controls braking and monitors the surroundings.◊

Click to discover more.

Hyundai SmartSense

Forward Collision-Avoidance Assist 1.5 – Junction Turning (FCA-JT).
Sensing the road with radar and a camera, the system automatically brakes when it detects sudden braking by the car ahead, or pedestrians and bikes on the road.◊

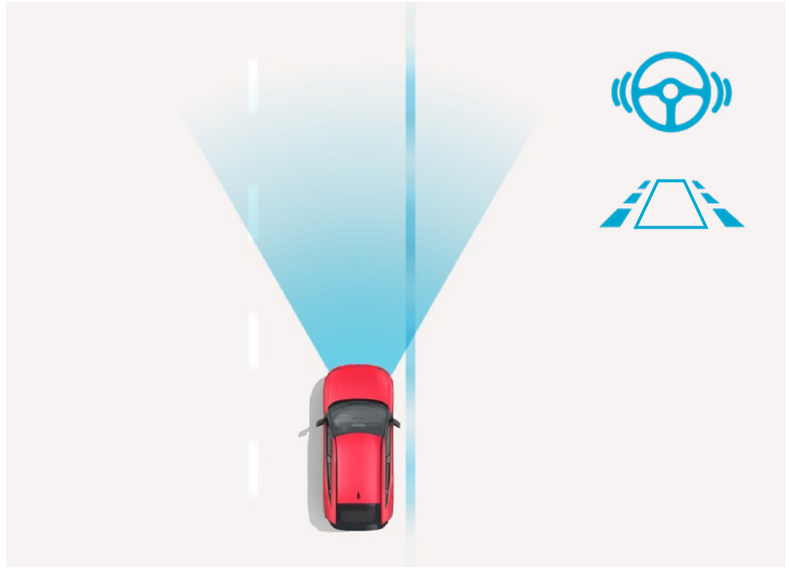

Blind-Spot Collision-Avoidance Assist (BCA).
Delivering more safety in dense traffic, BCA will warn you and automatically apply the left or right brakes and control the steering when a vehicle is detected in your blind spot and you begin to change lanes.◊

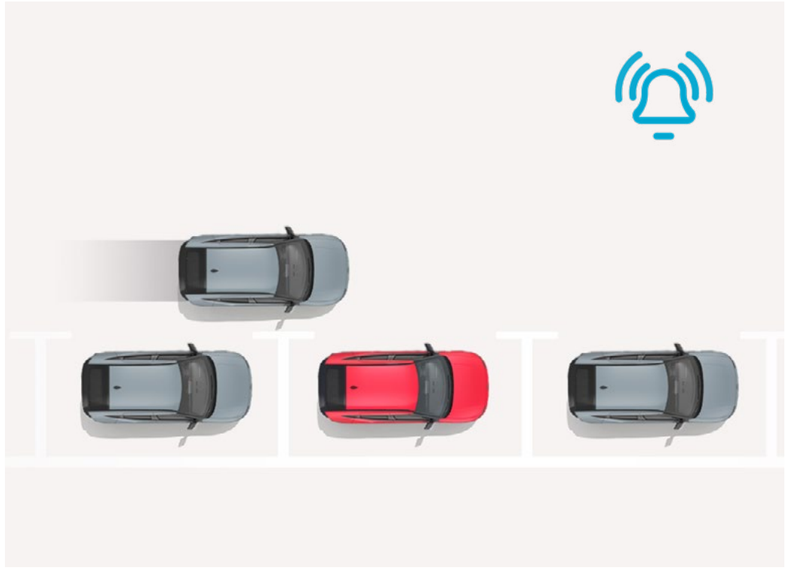

Highway Driving Assist II (HDA II).
Hyundai's autonomous driving technology enables your car to steer, accelerate and brake automatically. It keeps you centred in lane and at a safe distance behind the car ahead.◊

Click to discover more.

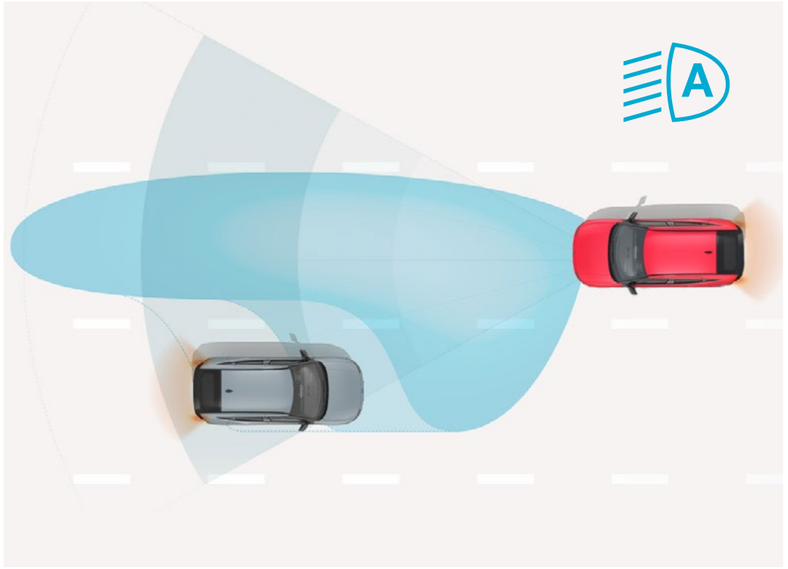

Hyundai SmartSense

Lane Keeping Assist (LKA).
If you start to leave your lane without indicating, Lane Keeping Assist warns you and can provide corrective steering assistance to help guide IONIQ 3 back into its lane.◊

Safe Exit Warning (SEW).
When IONIQ 3 is stopped, Safe Exit Warning can detect vehicles approaching from behind and warn occupants if opening a door could create a risk of collision.◊

High Beam Assist (HBA).
High Beam Assist detects oncoming vehicles and vehicles ahead and automatically switches between high and low beam, helping provide good visibility without dazzling other road users.◊

Freedom to go further.
OF HY321E

Go further, faster, easier.

Pick your preferred power and range.
Choose from the 42.2 kWh battery with up to 344 km[4] of range or the 61 kWh battery with a class-leading range of up to 497 km.[4] Whichever option suits you best, IONIQ 3 combines efficient electric performance with intelligent features that make charging and longer journeys easier.

EV Route Planner.
The integrated EV Route Planner automatically finds suitable charging stops along your route, making longer journeys more convenient.

Plug & Charge.
Once your Charge myHyundai account is set up, IONIQ 3 starts charging the moment you plug in at a compatible station, with no app or charging card required.

Charge your way.

Built on Hyundai Motor Group's 400 V Electric-Global Modular Platform, IONIQ 3 is designed for flexible charging in every situation, from fast DC charging at high-power stations on longer journeys to convenient AC charging at home, at work or at public charging points.

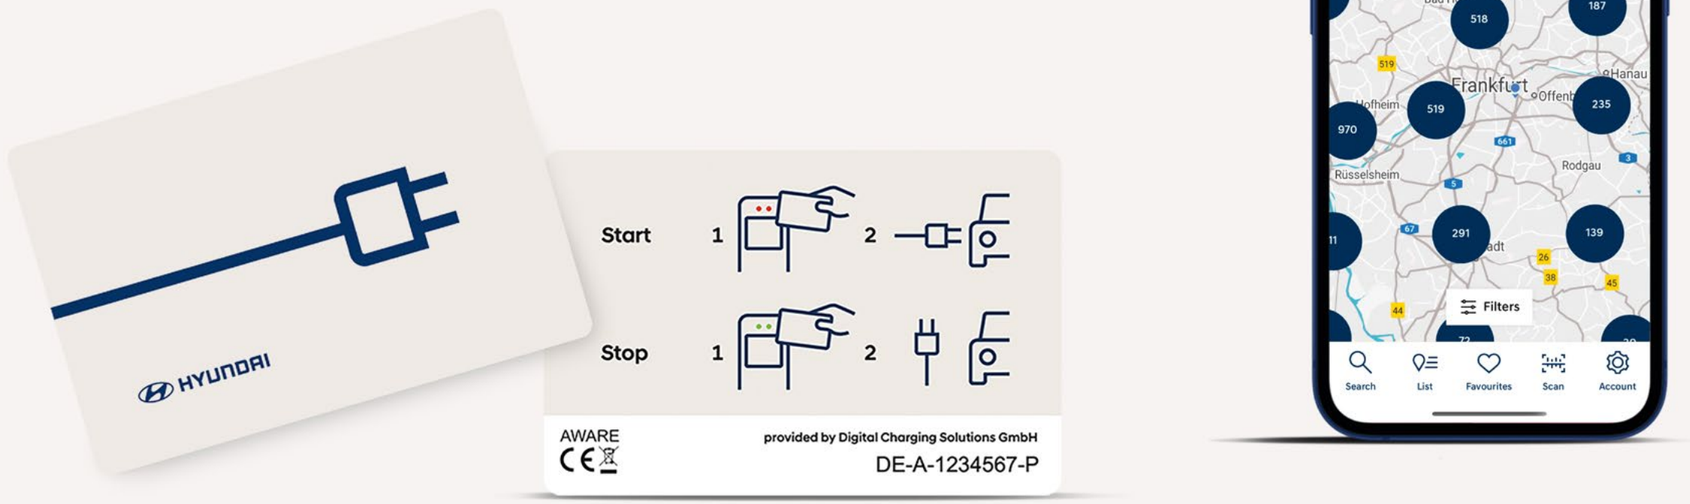

Optional 22 kW AC charging.
Compared with the standard 11 kW on-board charger, the optional 22 kW version can nearly halve AC charging times at compatible wallboxes and public AC charging points, giving you more range in less time while the car is parked.

Charging times by battery.	**42.2 kWh**	**61 kWh**
DC fast charge, 350 kW station, 10–80%	29 min[5]	29 min[5]
AC charge, 11 kW OBC, 10–100%	4 h 06 min[5]	5 h 36 min[5]
AC fast charge, 22 kW OBC, 10–100%	2 h 06 min[5]	2 h 42 min[5]

Charge myHyundai.

Click to discover more.

Charging your electric vehicle has never been easier or more accessible. Welcome to Charge myHyundai: a comprehensive and easy-to-use public charging solution that gives you access to over 1,100,000 charge points in 28 European countries.

Enjoy easy cross-border charging with one single contract through e-roaming. 1 App. 1 Card. 1 Invoice. That means no hassles thanks to a streamlined one-payment solution. And we offer several attractive tariff models to fit your needs.

IONITY high-power charging network.

Click to discover more.

IONITY makes long-distance travel with electric vehicles the new normal – building and operating a high-power charging network along Europe's highways, with high-power charging stations delivering up to 600 kW, so your IONIQ 3 can charge at its maximum supported speed.

You benefit from short charging times while always being provided with 100% renewable energy for emission-free and carbon-neutral driving. IONITY is part of Hyundai's pan-European public charging service, Charge myHyundai.

Why go electric?

Click to discover more.

There are many reasons: the driving experience, costs and zero tailpipe emissions.
What's more, most European countries as well as many regional and local governments incentivise your electric choice with grants and tax breaks. Talk to your local Hyundai dealer and they will explain the benefits that apply to your region.

EVs require less maintenance.
Electric battery vehicles have no oil and no transmissions – that means they need less maintenance. While an internal combustion car engine contains hundreds of moving parts, an electric motor only needs around half a dozen, significantly reducing the probability of something breaking. No oil changes, either. That's why less maintenance is needed overall.

Saving money by going electric.
Although the initial purchase price of an EV is typically higher than that of a traditional car, you may pay less on charging, maintenance and taxes.[6]
In many European countries, zero-tailpipe-emission vehicles benefit from vehicle tax reductions or exemptions. Potential savings can add up over time, particularly for drivers who cover higher annual mileage or regularly charge at home.

Fun to drive and roomy interiors.
Smooth, silent and super zippy when you press the pedal, electric vehicles are a pleasure to drive. They are typically also roomier on the inside than conventional cars due to the fact that the centre tunnel for the transmission is not needed. Lightning-quick off the line thanks to instant torque delivered by the electric motor, electric vehicles (EVs) accelerate quickly and run quietly for a very dynamic driving experience.

Enjoy the freedom
to be yourselves.

[1] Active Bluelink subscription required. 3 years included in Bluelink LITE package.

[2] Selected features and services require an active Connected Car subscription.

[3] Access to apps, connected services and digital content may require a subscription. Availability may vary by market, vehicle specification and subscription status.

[4] Electric consumption (combined test cycle) and electric driving range are based on the WLTP test cycle. Driving range may vary slightly depending on road conditions, your driving style and the temperature. It is also dependent on the type of tyres and wheels equipped. Consumption, range and specifications may vary by model and country.

[5] Charging speed may be limited by the output capacity of the charger type used and may also depend on battery temperature, outside temperature, state of charge and environmental conditions. 22 kW AC charging requires the optional 22 kW on-board charger and a compatible 22 kW AC charging point.

[6] Local jurisdiction may vary. Individual costs are dependent on your driving and charging behaviour.

[+] The Hyundai Digital Key 2 feature requires a compatible mobile device, myHyundai App installation and an active subscription. Features, app and specifications are subject to change. The Hyundai Digital Key 2 can be shared via the Wallet app (Apple Wallet, Samsung Wallet and Google Wallet) on your mobile device. Shared keys can only be used on devices that are compatible with Hyundai Digital Key 2. For more details, see the owner's manual and the Bluelink terms of use.
