

Explore the new STARIA Electric

Lean back and relax, STARIA Electric is redefining what it means to travel in comfort. Reconnect with friends and family, lay back for a nap, or prep for your next meeting. This is our new electric flagship for spacious, everyday mobility with up to 430 km of driving range ¹. In this space, the possibilities are unlimited: work smarter, play with more flexibility – and drive in more style.

A new all-electric chapter

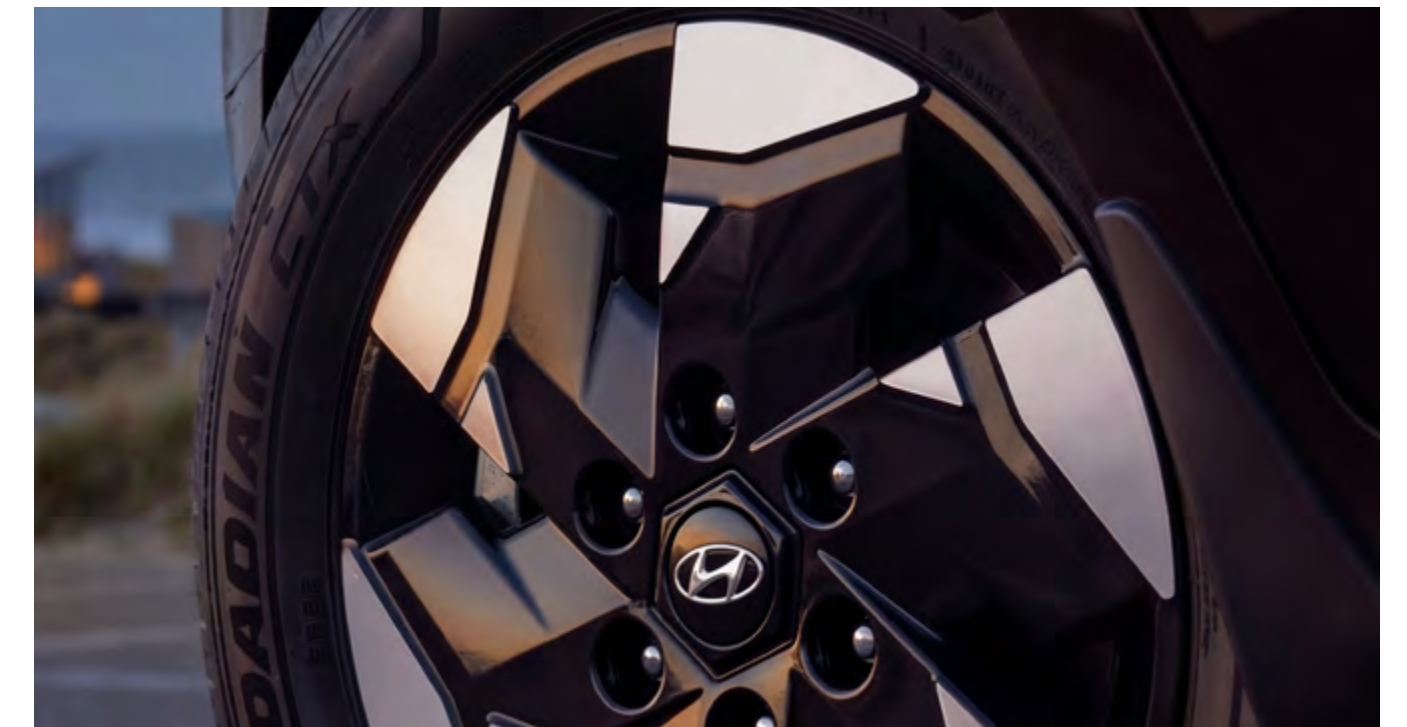

Designed to stand out from every angle

Sleek and pure, STARIA Electric's streamlined design is defined by its elegant silhouette and EV specific design elements like the continuous horizontal light band in the front. Designed to look good and flow better, the unique closed grille sets the tone for stylish lines that provide optimal aerodynamics.

Cube-type, full-LED projection headlamps.

17" diamond cut alloy wheels optimised for comfort and efficiency.

Strikingly futuristic, STARIA Electric's exterior utilises minimalist lines for maximum visual impact. Defined by the silhouette's fluid curve running from front to back – low beltlines and panoramic windows improve visibility and create a feeling of openness.

Power-folding exterior mirrors with integrated LED turn indicators.

The seamless front horizon light makes an elegant first impression.

Radiating simplicity and high-tech elegance, the LED combination lamps feature Hyundai's Parametric Pixels for a one-of-a-kind look.

The next level of comfort

Inside, you're greeted by a spacious, wide-open cabin that flourishes with premium touches like a 12.3" digital cluster and centre touch screen. Finished in elegant, soft-touch materials that are always easy on the eyes, every interior detail has been designed to make driving life easier, safer, and more fun.

Dual 12.3" displays, the floating dashboard, a heated leather steering wheel and ambient interior lighting enhance the futuristic atmosphere.

The elegant rotary type shifter is located on the steering column.

Clever storage and large centre console with a retractable cover.

Welcome to a new level of comfort and roominess

Step into STARIA Electric and experience exceptional roominess and comfort. Enjoy a relaxed, wide-open feeling on the road with a high ceiling, abundant head and shoulder room and generous leg room that is among the best in the segment.

At the touch of a button, the Premium Relaxation Seats recline, redistributing your bodyweight to make you feel like you're floating on air. The backrest, seat cushion and legrest are individually power-adjustable.

Crafted for peak comfort and convenience

STARIA Electric offers a variety of smart features that provide unexpected delight. The sliding door and tailgate open and close automatically on your approach and departure. And long sliding seats provide an extra measure of flexibility for reconfiguring the cabin space.

Heated and cooled Premium Relaxation Seats.

Generous legroom that is among the best in segment.

Nice and easy. No hands or button pressing required. The smart door opens automatically when you have the smart key with you.

Next level convenience and connectivity

From a 230V power socket that lets you charge your laptop and power other large devices, to easily accessible USB-C ports in every row – STARIA Electric gets it right by surrounding you with a variety of smart features that make every journey just that much easier.

Vehicle-to-Load charging (V2L) lets you power any device or charge electrical equipment with the interior power socket or exterior charging port.

Wireless charging pad for quick, no-hassle charging.

Easily accessible USB-C ports in every row.

STARIA Electric’s stellar range of intuitive smart tech lets you make life inside as connected as you want it to be – including the Hyundai AI Assistant, an AI-enabled voice recognition system similar to a home virtual assistant. It utilises generative AI from ChatGPT to enhance your driving experience.³

Hyundai AI Assistant – AI-enabled voice recognition system.

Over the Air software updates at the push of a button.

The Smart EV Route Planner shows you real-time charging station information like location, connector types, and charging station availability.

STARIA Electric offers plenty of clever technology and intelligent details to make everyone’s life on board easier – and your drive more enjoyable. Enjoy high levels of convenience features that help redefine in-car travel experiences.

Passenger watch and talk, A camera brings rear passengers onto the centre screen while microphones and speakers support easy conversation.

Independent 2nd row automatic air-conditioning.

Heated and cooled 2nd row seats.

Vehicle-to-Load technology

Simply plug in your laptop or e-bike to charge them, just like at home. There's a 230V socket located in the centre console as well as a converter that plugs into the exterior charging port, which provides up to 3.6 kW power to run any appliance – even when the vehicle is turned off.

230V Vehicle-to-Load (V2L) socket in the centre console.

Exterior Vehicle-to-Load allows you use or charge any electric devices, such as electric bicycles, scooters or camping equipment.

Use your smartphone or Apple Watch to lock, unlock and start STARIA

Now you can leave your car key at home – because Hyundai Digital Key 2 is part of our innovative Bluelink Connected Car Services.

For more convenience, STARIA Electric can be locked, unlocked, and started via smartphones or Apple Watch. You can also easily share Hyundai Digital Key 2 with up to 15 additional smartphones, allowing your family and friends to enjoy access to the vehicle after saving it in their phone's wallet. When sharing your key, you can even customize the level of access each person receives, ensuring full control and peace of mind.⁺

myHyundai – Connected beyond the driver's seat

Stay connected to your STARIA Electric wherever you are.

The myHyundai app gives you easy access to charging information, vehicle status, and remote controls directly from your smartphone.⁴

Comfort from anywhere

Set the vehicle temperature before you leave with remote climate control, so your STARIA Electric is ready whenever you are.

EV confidence at a glance

Monitor charging status, manage charging settings, and plan journeys with charging stops – all from one convenient app.

Your STARIA Electric, always within reach

Access a wide range of remote functions including: vehicle locator, door lock and unlock, battery conditioning, and more – directly from the myHyundai app.⁵

Your connected journey, powered by Bluelink

Stay connected wherever the road takes you. STARIA Electric seamlessly combines connected navigation, real-time information, and digital services to make every journey easier, more convenient, and more enjoyable.

Smarter EV journeys

Plan your route with confidence using connected navigation, charging-aware route planning, as well as real-time traffic and travel information.

Entertainment on the move

Designed for the whole family. Enjoy popular streaming services, news, games, children's content, and karaoke directly to the vehicle. Combined with a dedicated Wi-Fi Hotspot,⁶ it helps keep everyone entertained and connected on every journey.

Unlock more with the Bluelink Store

Personalise your experience with additional digital features and services. Choose the Bluelink Subscription that fits your lifestyle and enjoy a connected experience tailored to your needs.

Next level EV performance

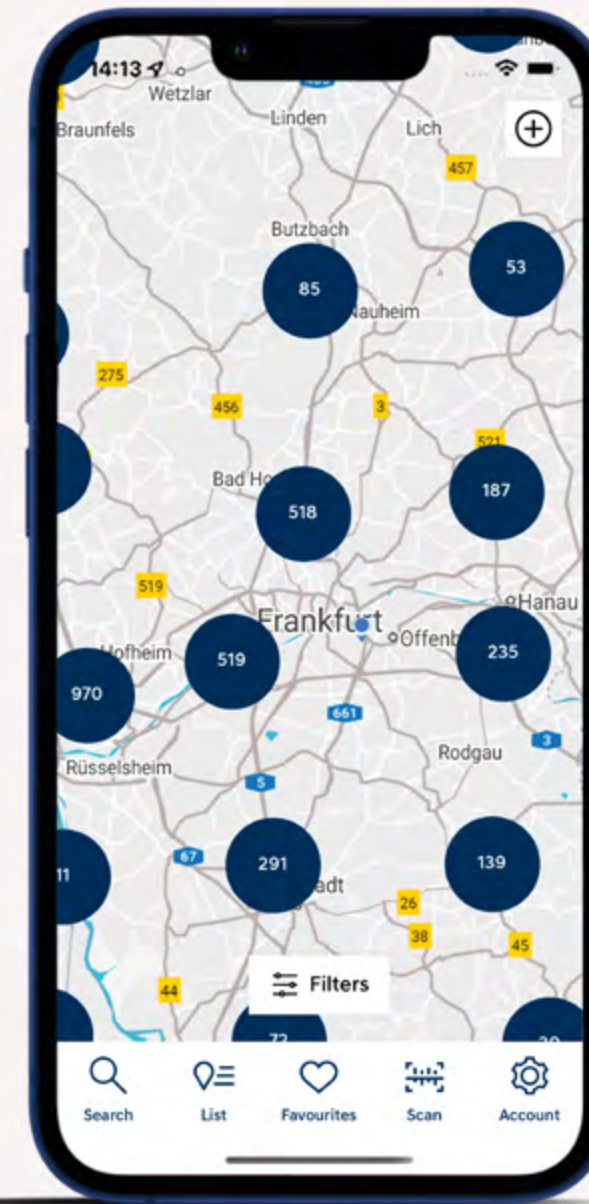

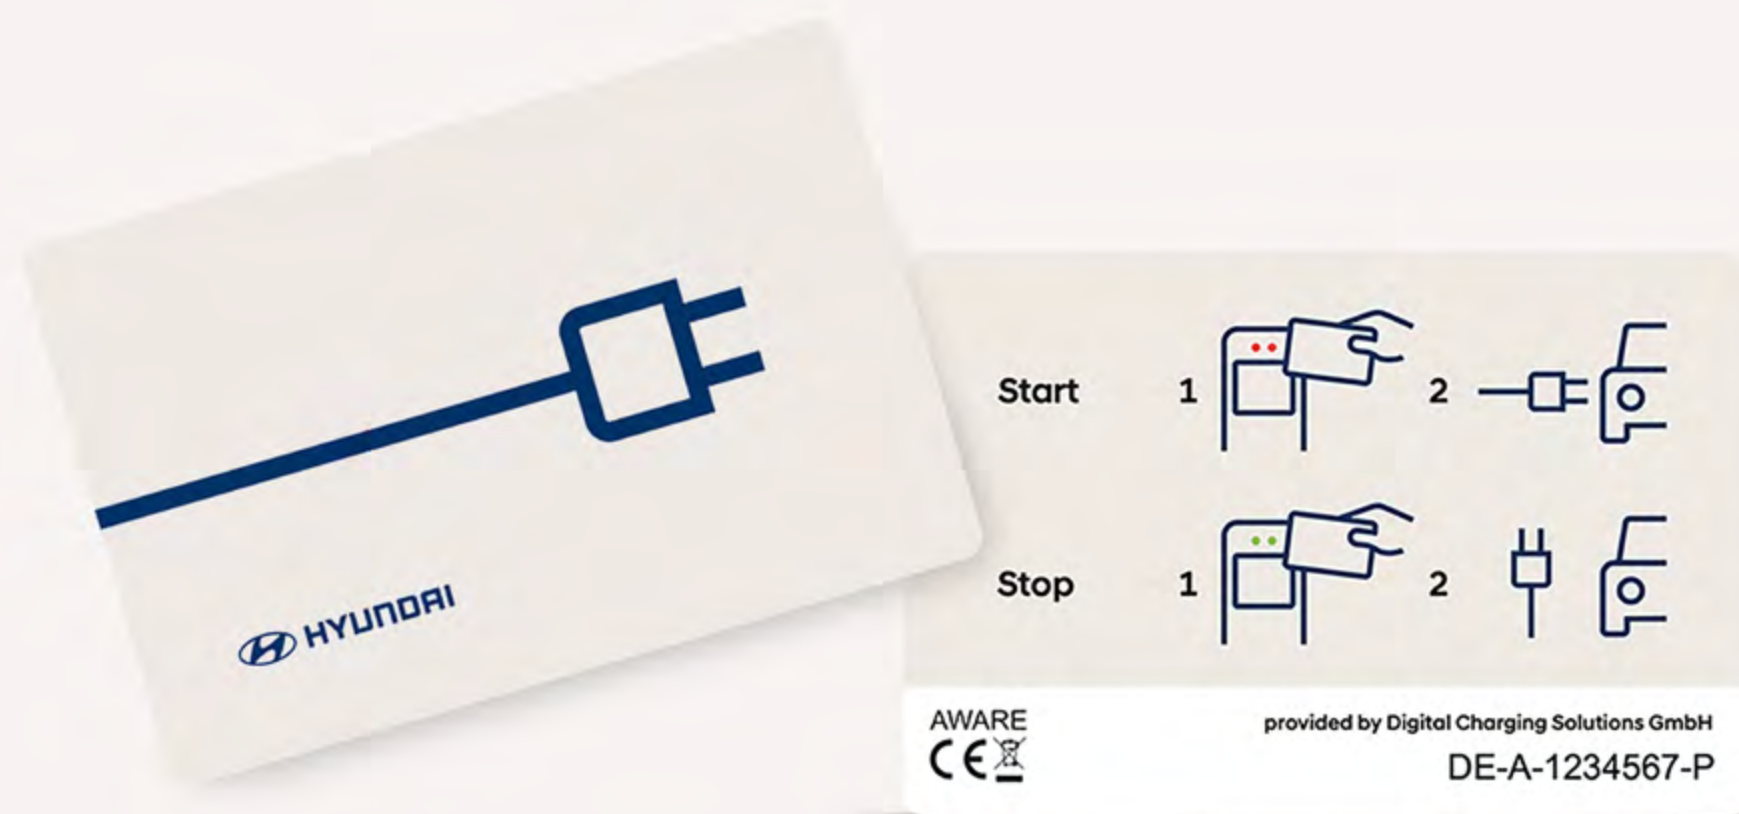

Smart regenerative braking for more range

Enjoy fingertip control. STARIA Electric's regenerative braking system charges the battery while driving by using the electric motor to slow the vehicle. The higher the level, the more the car slows and charges the battery when you take your foot off the accelerator. You can easily adjust the level of regenerative braking through the paddle shifters mounted on the steering wheel. And for even more intuitive control, i-Pedal mode lets you accelerate, decelerate, and come to a complete stop using just the accelerator pedal.

Charge myHyundai

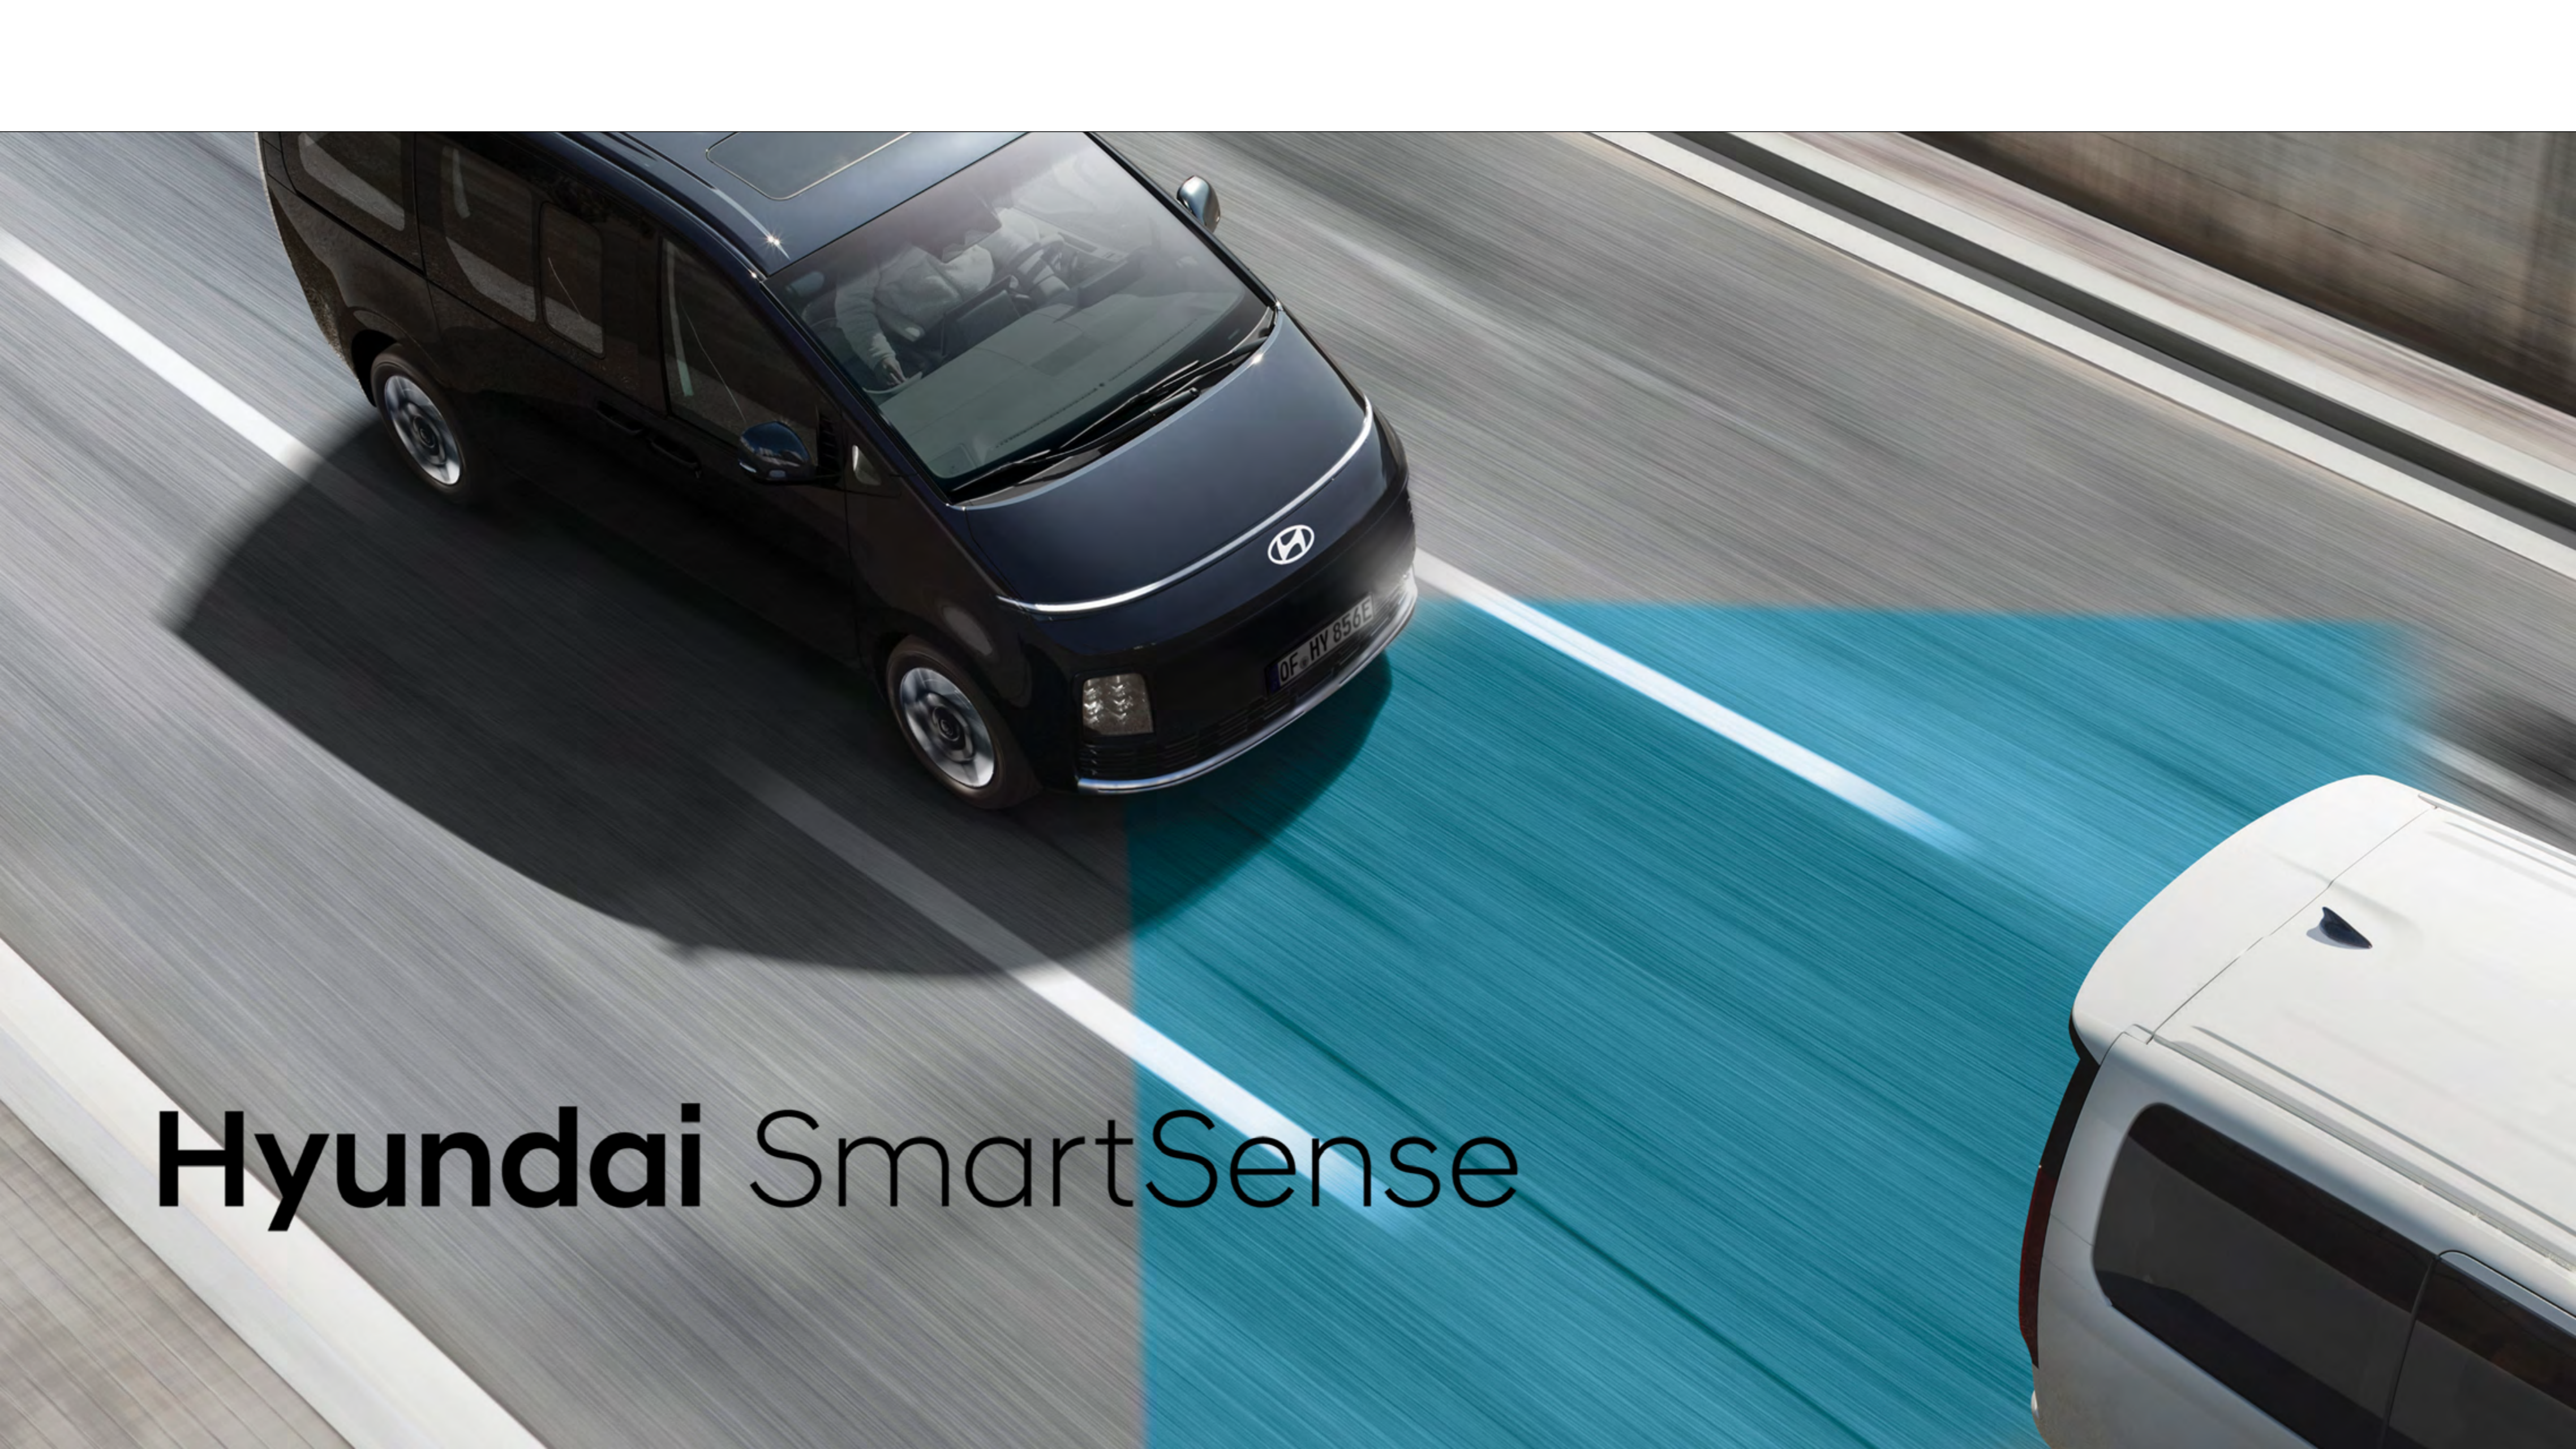

Charging your electric vehicle has never been easier or more accessible. Welcome to Charge myHyundai: a comprehensive and easy-to-use public charging solution that gives you access to over 1.1 million charge points in 28 European countries. Enjoy easy cross-border charging with one single contract through e-roaming. 1 App. 1 Card. 1 Invoice. That means no hassles thanks to a streamlined one-payment solution. And we offer several attractive tariff models to fit your needs.

IONITY high-power charging network

IONITY makes long distance travel with electric vehicles the new normal – building and operating a high-power charging network along Europe’s highways, with high-power charging stations delivering up to 600 kW, so your STARIA Electric can charge at its maximum supported speed. You benefit from short charging times while always being provided with 100% renewable energy for emission-free and carbon neutral driving. IONITY is part of Hyundai’s pan-European public charging service, Charge myHyundai.

Hyundai SmartSense

Hyundai SmartSense

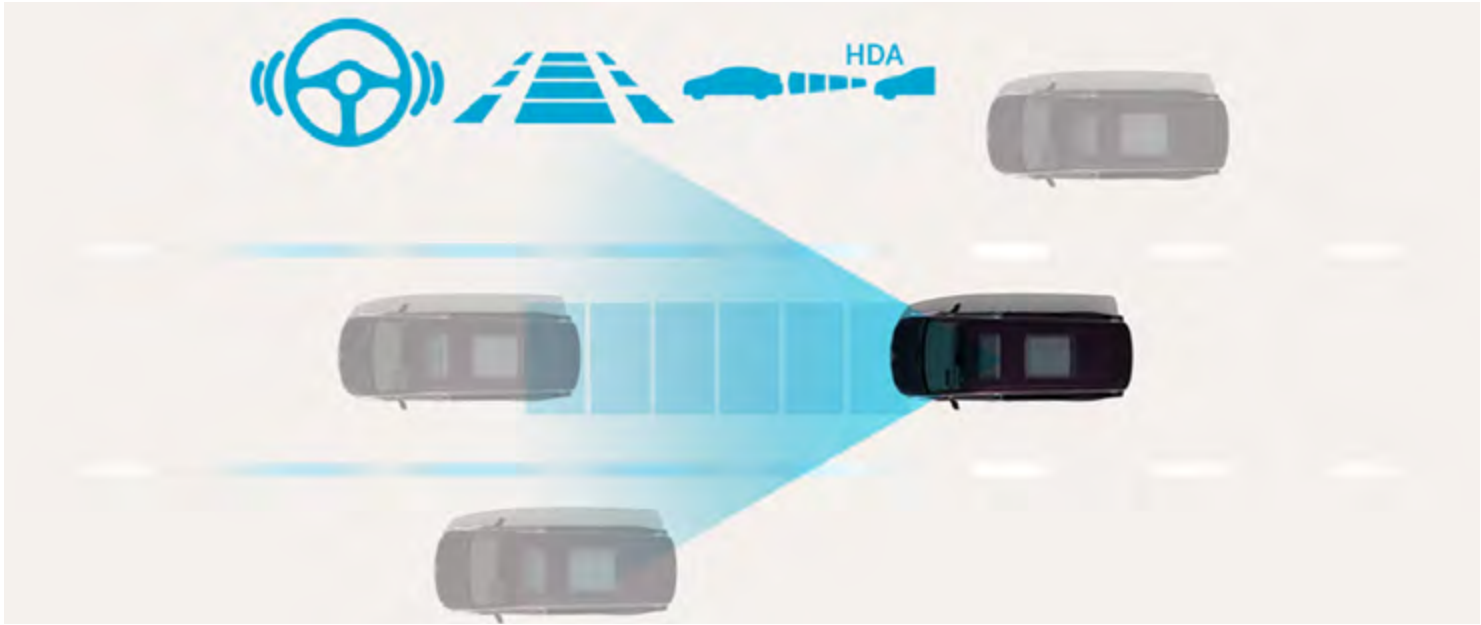

Forward Collision-avoidance Assist 1.5 with Junction Turning (FCA-JT).
Automatically brakes when it detects sudden braking by the car ahead or detects pedestrians or cyclists in your path. During cross intersection turning, it brakes if there is a risk of collision with an oncoming vehicle. ♦

Lane Following Assist 2 (LFA 2).
When activated, LFA2 provides slight steering inputs to keep the vehicle centred in its lane at speeds between 0 and 140 km per hour on highways and city streets. The front view camera recognizes lanes to help with steering. ♦

Blind Spot Collision-avoidance Assist (BCA).
Using two radar sensors in the lower rear bumper, the system warns you of traffic in the blind spot area. Should you set the turn indicator in such a situation, it will sound an acoustic and visual alert. ♦

Highway Driving Assist (HDA).
HDA helps maintain a set distance and speed from the vehicle ahead when driving on a highway and helps centre the vehicle in the lane while driving, even through a curve. ♦

Better visibility for more safety and less stress

The Blind-Spot View Monitor lets you see the rearward left- and right-hand side views as a video feed in the digital cluster. The cameras are activated by the turn indicator during lane changes. The Surround View Monitor gives you a 360-degree view of the area around your vehicle to make manoeuvring in confined spaces easy and safe.

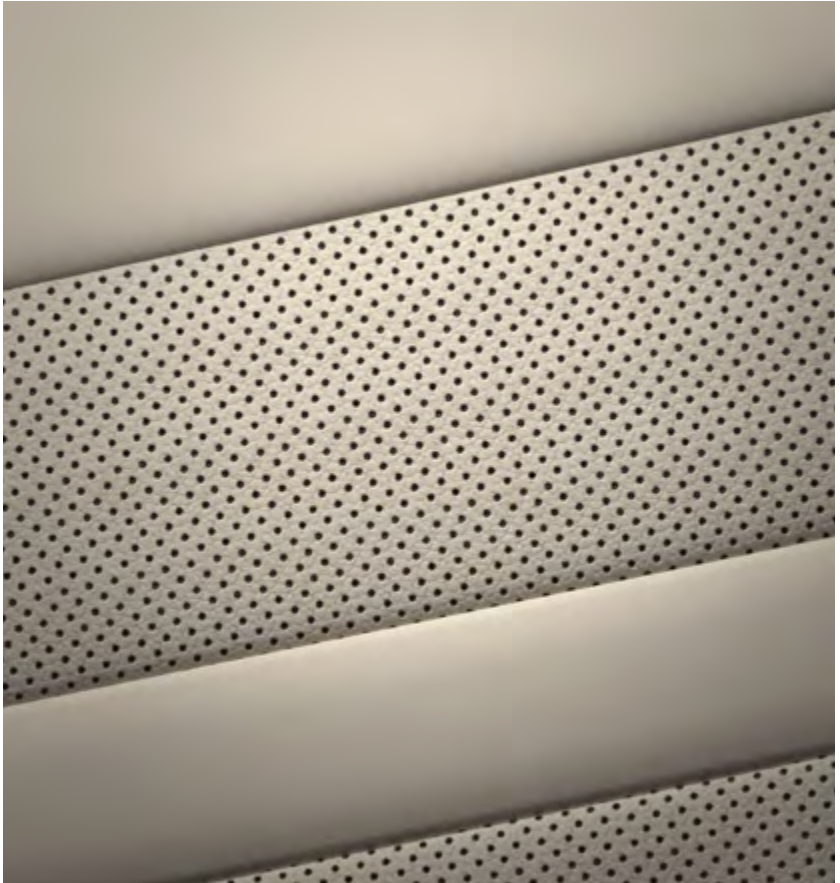

Blind-Spot View Monitor (BVM).

Surround View Monitor (SVM).

Express yourself and choose
from eight exterior colours.
Both variants feature 17-inch
wheels optimized for comfort,
efficiency and load capability.

Find your favourite. Depending on trim level, multiple interior colour schemes can be selected:
Black One-Tone, Black/Anthracite Brown Two-Tone, Black/Bordeaux Brown Two-Tone, Gray/Rotorua Cream Two-Tone.

Obsidian Black One-Tone (NNB)
(Available for Wagon and Luxury)

Anthracite Brown Two-Tone (RPC)
(Available for Wagon)

Anthracite Brown Nappa Two-Tone (RPC)
(Available for Luxury)

Bordeaux Brown Two-Tone (WBD)
(Available for Luxury)

Rotorua Cream Two-Tone (UCJ)
(Available for Luxury)

⁺ The Hyundai Digital Key 2 feature requires a compatible mobile device, myHyundai app installation and an active subscription. Features, app and specifications are subject to change. The Hyundai Digital Key 2 can be shared via the Wallet app (Apple Wallet, Samsung Wallet, and Google Wallet) on your mobile device. Shared keys can only be used on devices that are compatible with Hyundai Digital Key 2. For more details, see the owner's manual and the Bluelink terms of use. Smartphone and screen are shown for illustration purposes only.

⁺⁺ STARIA Electric comes with 6 months complimentary Bluelink PRO connectivity and ten years of Bluelink LITE, our base tier for Bluelink connectivity. You can purchase Bluelink PLUS or PRO in the Bluelink Store.

¹ Electric consumption (combined test cycle) for the Hyundai STARIA Electric equipped with 17" wheels in kWh/100 km: 21.8; Electric driving range: 430 km; CO₂ emissions (combined test cycle) in g/km: 0 (WLTP). Driving range may vary slightly depending on road conditions, your driving style and the temperature. It is also dependent on the type of tyres equipped. Consumption range and specifications may vary by models and countries.

² Charging speed may be limited by the output capacity of AC wallbox or DC public charging station and may also depend on battery temperature or outside temperature.

³ Selected features and services require an active Connected Car subscription.

⁴ Active Bluelink subscription required. 3 years included in Bluelink LITE package.

⁵ Availability of remote services depends on the Bluelink subscription package. Selected services require an active Bluelink PLUS or PRO subscription, available in the Bluelink Store via the myHyundai app.

⁶ Entertainment Package and Wi-Fi Hotspot require a separate subscription and are available at an additional cost.

◊ The features shown are intended to assist drivers to engage in safe driving behaviour. They do not relieve the driver from their responsibility to safely operate the vehicle at any time and to adapt their driving based on the driver's capabilities, local traffic rules and the overall road and traffic conditions. The system is not designed to drive the vehicle autonomously. For further information, please refer to the owner's manual.

Some features may be optional. Their availability may differ by vehicle specifications and country.
