

i20

Human Ready.

Inspire attention.

The Hyundai i20 is making a stir on the roads with its dynamic design and best-in-class technology and safety features. Its sporty style makes an impact and it's human ready, which means it's built around you to provide a seamless and convenient driving experience. The Hyundai i20 redefines motion, even when not on the move.

Take the spotlight in style.

With its distinctive design and a choice of new colours, the Hyundai i20 makes an impression everywhere. The bold new front and rear bumpers blend with the striking new wheels to create a shape that's full of dynamism. It doesn't matter where you want to go, it'll always fit in.

Technology with a human touch.

Style meets substance in an intelligent interior that's designed around you and your needs. An 8" or 10.25" centre touch screen and a 10.25" digital cluster give you an overview at a glance, while USB-C and wireless charging and calling mean you're always connected, even if you're not plugged in. New, multicolour ambient lighting and accent options complete the package to give you an interior that's as striking as the i20's exterior.

Wireless charging and USB-C.

The wireless charging tray conveniently located in the centre console lets you easily charge a compatible Qi-enabled smartphone without the use of cables. For fast charging and universal compatibility, there's a USB-C port in the front and the rear. The front has a USB-A port to read data as well.

In sync with you.

Connected Car Services.

Bluelink®.

Bluelink® keeps you connected, regardless of whether you're on the move or your vehicle is parked. With the latest version of Bluelink® Connected Car Services, the i20 offers seamless connectivity with online voice recognition and a wide range of features to make your drive more convenient and enjoyable. Take advantage of real-time data, such as traffic information, parking updates and local petrol station information as well as Connected Routing, our online navigation system. Find out more online and see how Bluelink® can make driving safer, easier and more fun.

Over-the-air software updates.

Benefit from continuous updates and new features through over-the-air vehicle software updates. Get the latest enhancements as soon as they are available, without having to download and install them manually, or visit a dealership. Over the air keeps your system up to date and ensures all the latest Bluelink® map and infotainment software versions as well as vehicle system updates are ready automatically.

Scan here to explore the entire range of Bluelink® services on our website.

Drives as good as it looks.

Regardless of whether you choose petrol or mild hybrid, manual or automatic, the i20 has the most efficient and dynamic powertrain for you. An 48-volt mild-hybrid system can be mated to the new i20's 1.0 T-GDi engine - available with 74 kW (100 hp) or 88 kW (120 hp). Designed for maximum efficiency and performance, the system contributes to a reduction in fuel consumption and emissions.

Petrol engine

1.2-litre MPI petrol engine with 62 kW (84 hp), coupled with a 5-speed manual transmission. Front-wheel drive.

1.0-litre T-GDi petrol engine with 74 kW (100 hp), coupled with a 6-speed manual transmission or a 7-speed dual-clutch transmission. Front-wheel drive.

48-V mild hybrid

48-volt mild hybrid technology is available on the 1.0-litre T-GDi petrol engine with 74 kW (100 hp) and 88 kW (120 hp) and can be combined with a 6-speed intelligent manual transmission or a 7-speed dual-clutch transmission.

Choose between different transmission options:

7-speed dual-clutch transmission

The dual-clutch system enables lightning-fast gear changes, whether you use the convenient automatic mode or prefer to shift gears manually.

6-speed manual gearbox

The manual transmission lets you operate the clutch and shift gears yourself for precise, smooth gear changes.

Intelligent manual transmission (iMT)

The 6-speed iMT is designed to lower emissions and increase fuel efficiency by automatically engaging coasting mode whenever you release the accelerator.

Hyundai SmartSense

Our cutting-edge Hyundai SmartSense Advanced Driver Assistance Systems give the i20 one of the most comprehensive active safety technology packages in its class - built to provide you with more safety and peace of mind. A multi-function camera in combination with multiple sensors provides the different functions highlighted here.

Blind Spot Collision-avoidance Assist (BCA)

Using two radar sensors in the lower rear bumper, the system warns you of traffic in the blind spot area. Should you set the turn indicator in such a situation, it will sound an acoustic alert and brake to avoid collision.

Parking Collision-Avoidance Assist-Reverse (PCA-R)

Enjoy additional safety when navigating narrow parking spaces in reverse gear. When a collision risk with pedestrians or obstacles is detected, the system warns you and automatically engages the brakes.

Forward Collision-avoidance Assist (FCA)

Sensing the road ahead with radar and a camera, FCA warns you and then automatically brakes when it detects sudden braking by a car ahead. The system also detects pedestrians and cyclists.

Forward Collision-Avoidance Assist with Junction Turning (FCA-JT)

Sensing the road with radar and a camera, the system automatically brakes when it detects sudden braking by the car ahead, or pedestrians and bikes on the road. During cross intersection turning, it brakes if there is a risk of collision with an oncoming vehicle.

Lane Following Assist (LFA)

When activated, it keeps the vehicle centred in its lane at speeds between 0 and 180 kilometres per hour on highways and city streets.

Navigation-based Smart Cruise Control (NSCC)

Utilises the state-of-the-art navigation system to anticipate upcoming corners or straights on motorways and automatically adjusts speed for safer driving.

Leading Vehicle Departure Alert (LVDA)

This clever feature for city driving alerts the driver when the vehicle in front moves from stationary, like at a stop light or in a traffic jam.

High Beam Assist (HBA)

HBA not only detects oncoming vehicles but also vehicles in the same lane ahead and switches to low beam as necessary.

Rear Cross-traffic Collision-avoidance Assist (RCCA)

When reversing out of areas with low visibility, the system not only warns the driver if vehicles approach from the side, it also applies the brakes automatically.

Intelligent Speed Limit Assist (ISLA)

Alerts you with audio and visual warnings when you exceed the speed limit. When combined with the manual speed limiter or Smart Cruise Control, ISLA can even adapt the speed automatically.

Driver Attention Warning (DAW)

When a pattern of fatigue or distraction is identified, the system gets your attention with an alert and pop-up message suggesting a break.

Rear Occupant Alert (ROA)

This system detects if a rear door was opened or closed before the car was started, then reminds the driver to check the rear seat with a message on the centre cluster when exiting the vehicle.

Your car. Your colours.

The i20's refreshed interior is a perfect match for the head-turning exterior look. With various customisation options available, you can tailor the car to your individual taste. Choose from three trims: Black Mono, Black Mono & Grey and Black Mono & Lucid Lime for even more individualisation options.

Trim Black Mono

Trim Black Mono & Grey

Trim Black Mono & Lucid Lime

Mangrove Green (Pearl)

Optional two-tone roof available in Phantom Black (Pearl)

Meta Blue (Pearl)

Optional two-tone roof available in Phantom Black (Pearl)

Lucid Lime (Metallic)

Optional two-tone roof available in Phantom Black (Pearl)

Wheels.

The i20 is now available with a range of stylish wheels ranging from 15" steel wheels to newly designed 16" and 17" two-tone alloy wheels that complete the sophisticated side view.

15" wheel cover

16" alloy wheel

17" alloy wheel

EU tyre labelling.

EU Regulation (EU) 2020/740 has been in effect since May 1st, 2021, which affects tyre labelling. The new labels provide a quick,

clear overview of a tyre's performance, with more detailed information available online. Visit ([Hyundai URL](#)) for more information.

The i20 is available with different types of tyres. You'll find detailed information for the various tyres available below.

Supplier name or trademark	Hankook
