

Power your world.
New IONIQ 5.

Hyundai Business Powering Progress - shaping the future of fleet mobility

Hyundai continues to lead the way, offering fleet operators advanced solutions that balance practicality, cutting-edge technology, and improved sustainability. With one of the most diverse line-ups of electrified vehicles, the modern Hyundai range offers company car drivers a number of award-winning electric and plug-in hybrid models, all benefiting from low BIK.

The new IONIQ 5

With concept car design, zero emissions and 3% BIK*, the new IONIQ 5 is ready to power the business world. And with a range of up to 354 miles†, it makes an ideal business partner. The future of electric driving has arrived.

The new IONIQ 5 is the first vehicle built on Hyundai's Electric-Global Modular Platform (E-GMP). This dedicated battery electric vehicle platform enables faster charging, increased driving range, more interior space and better handling.

Unlimited peace of mind comes as standard with your Hyundai. We include five-year unlimited mileage warranty and 8 year/100,000 mile battery warranty.
