USB Type-C charging ports and wireless charging.

Wireless charging

The wireless charging tray, conveniently located in the centre console, lets you easily charge a compatible Qi-enabled smartphone without cables.

USB Type-C charging ports

There are three convenient USB Type-C ports for charging mobile devices in the new i30: one at the front and two for the rear passengers.

Transmission of emotion.

Different options tailored to the way you drive.

7-speed dual-clutch transmission (DCT)

Experience lightning-fast gear changes with the dual-clutch system. Whether in automatic mode or manual, shifting gears is seamless and responsive.

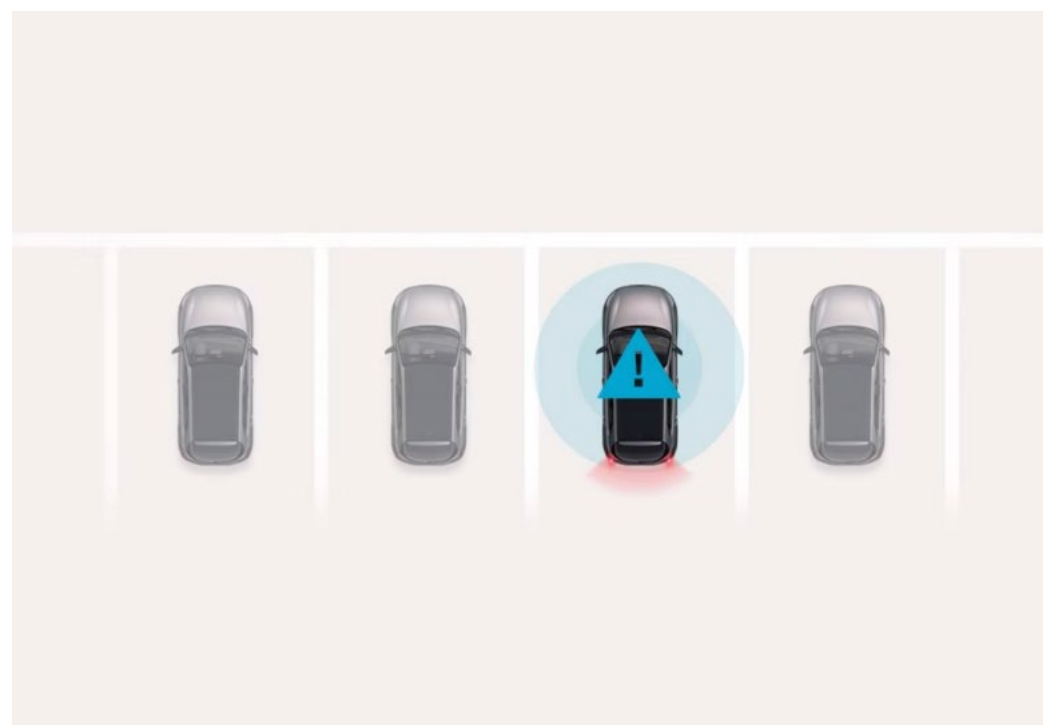

6-speed manual gearbox

The manual transmission lets you operate the clutch and shift gears yourself for precise, smooth gear changes.

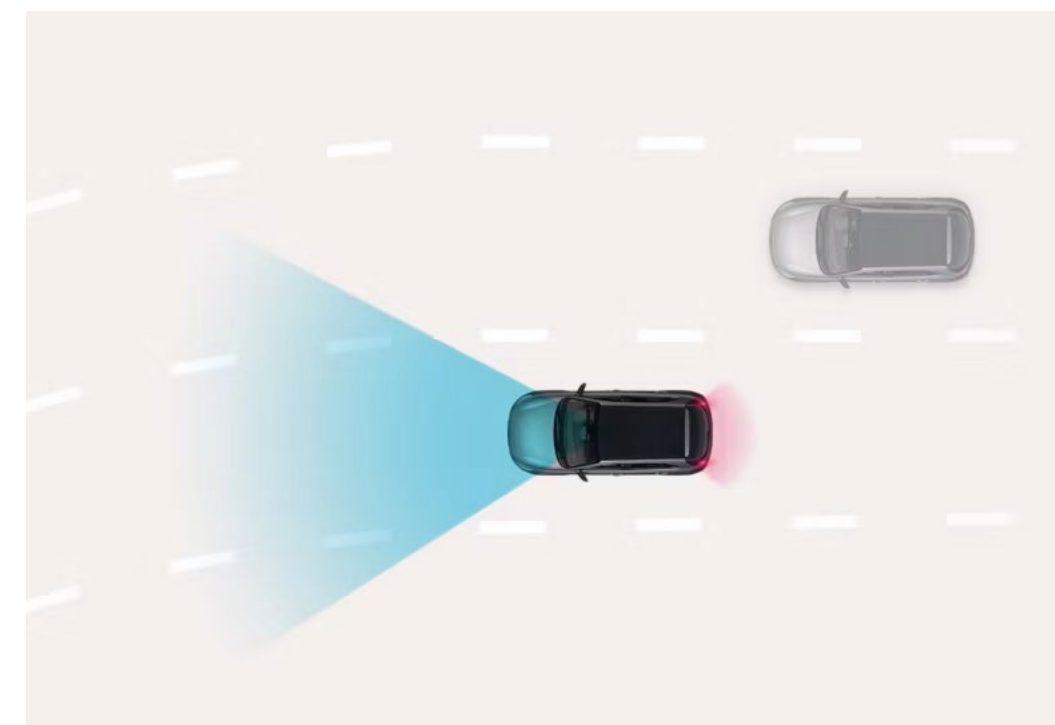

Hyundai SmartSense

Our advanced Hyundai SmartSense Driver Assistance System is now fully integrated into the new i30, offering you greater safety and peace of mind.

[Discover more](#)

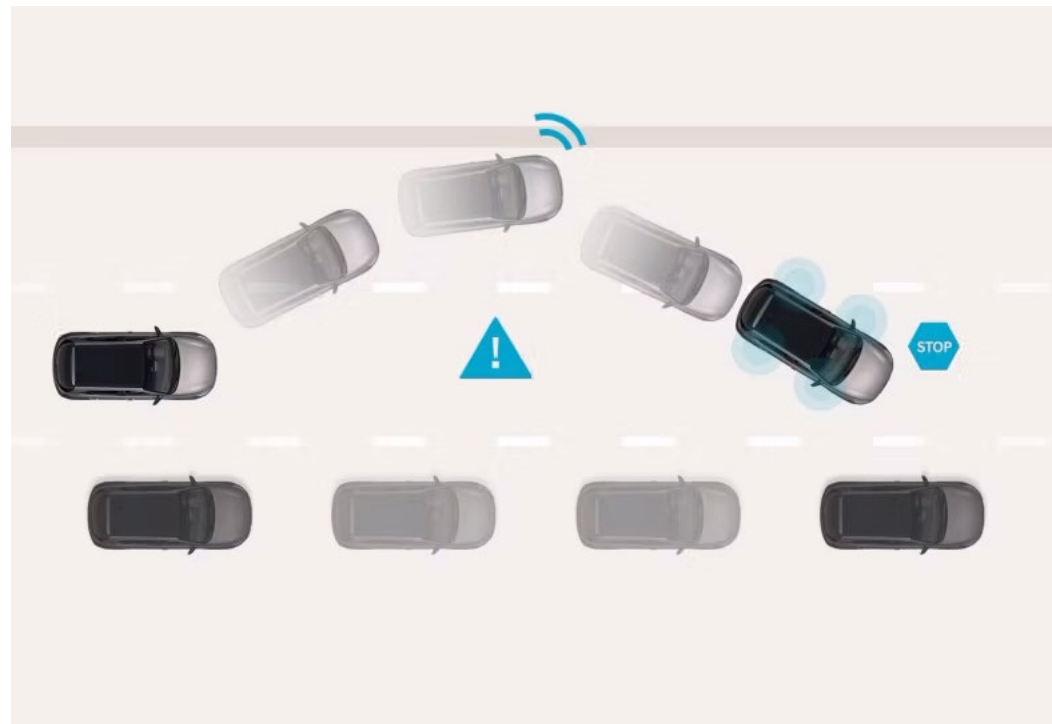

Rear Occupant Alert (ROA)

This system detects if a rear door was opened or closed before the car started, reminding the driver to check the rear seat with a message on the centre cluster when exiting the vehicle.

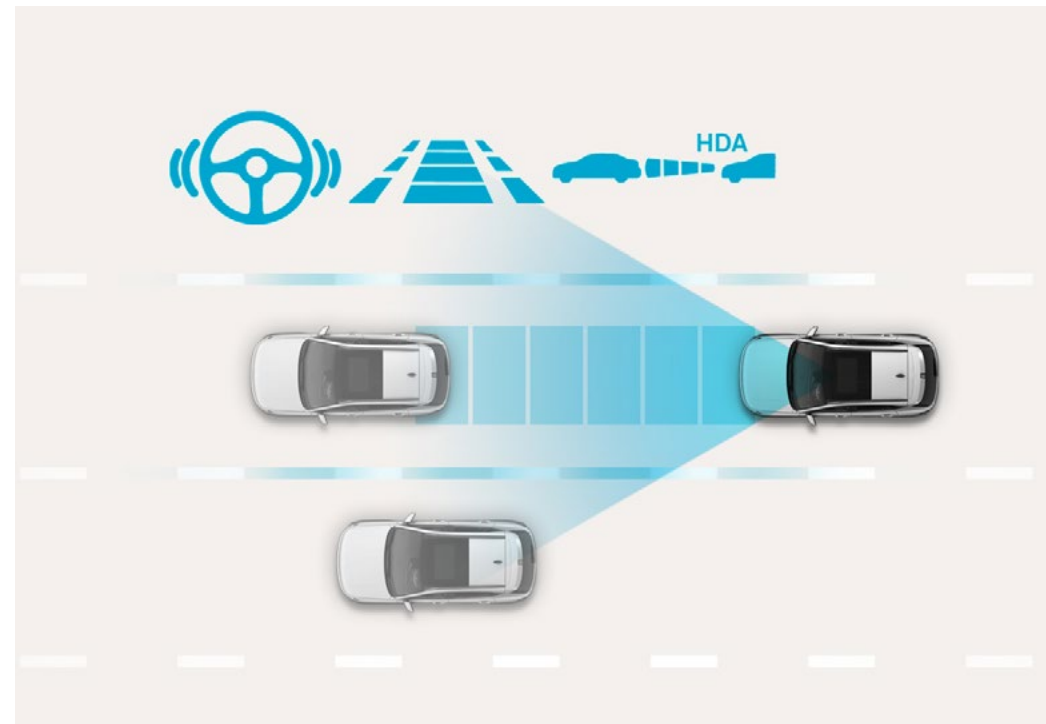

Navigation-based Smart Cruise Control-Curve (NSCC-C)

Using the navigation system, this feature helps you maintain a safe speed on the highway. You can set your speed to match current highway limits, and the curve function predicts upcoming curves, adjusting your speed accordingly. Only available on Premium/N-Line/N-Line S DCT.

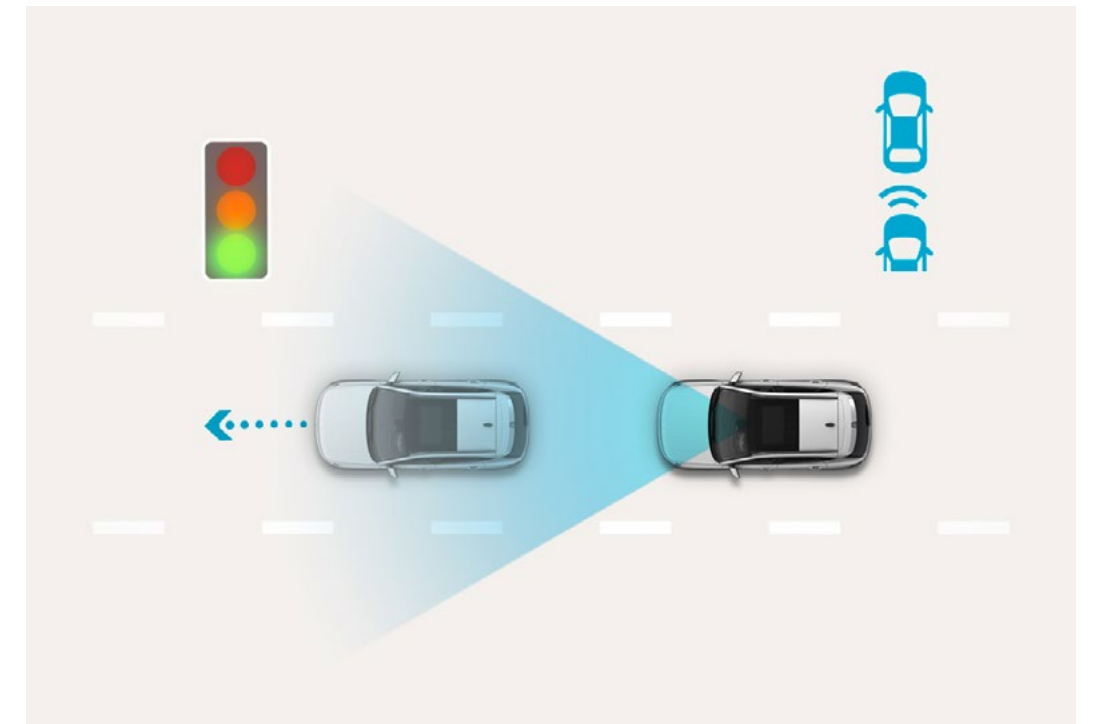

Multi-Collision Braking (MCB)

MCB helps to prevent passengers from secondary collisions after an initial impact. It works by automatically applying the brakes after vehicle airbags are deployed.

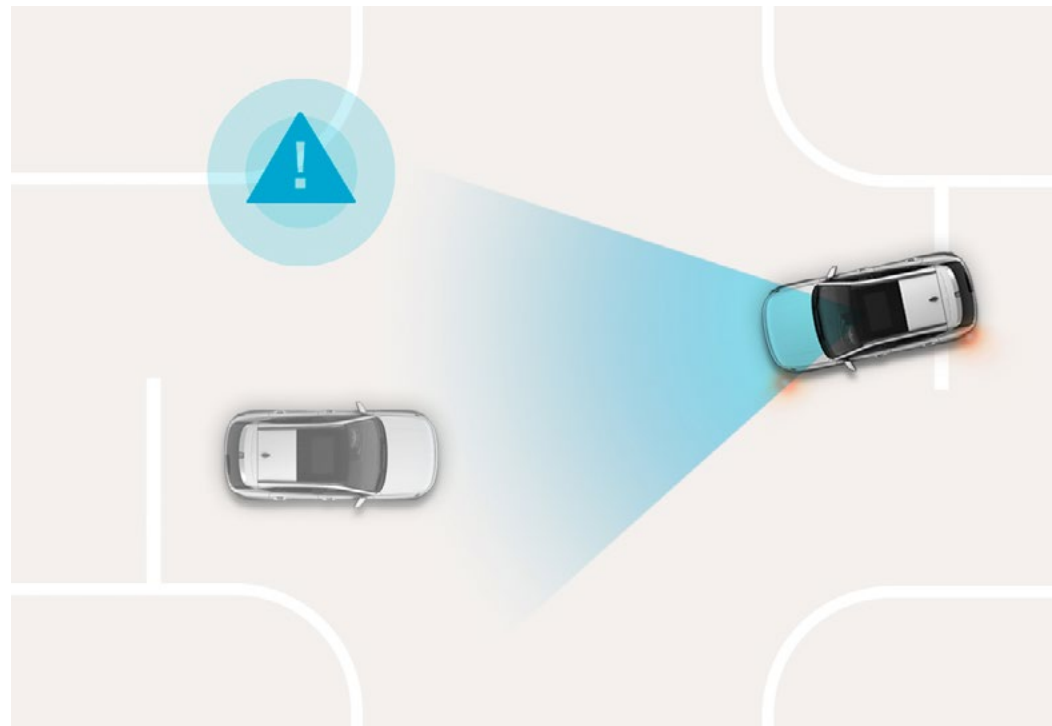

Highway Driving Assist (HDA 1.5)

Using camera, radar and navigation data, HDA keeps a set distance and speed from the vehicle ahead and centres the vehicle in the lane. The new HDA 1.5 adds motorways to the road types it operates on.

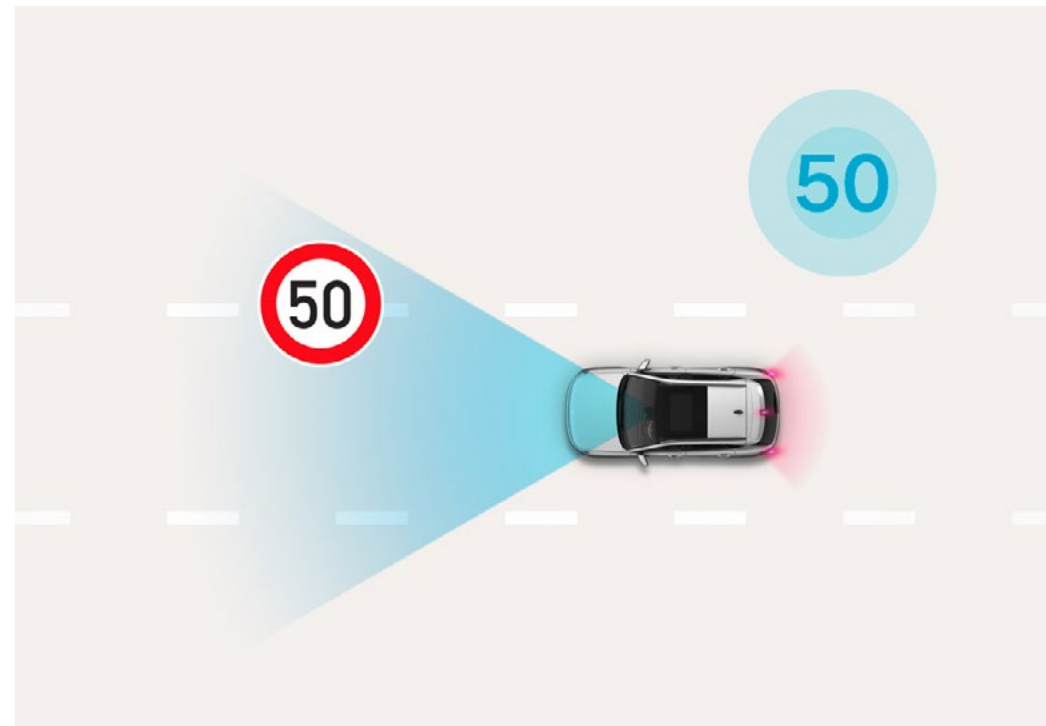

Leading Vehicle Departure Alert (LVDA)

This clever feature for city driving alerts the driver when the vehicle in front departs from an idle state, like at a stop light or in a traffic jam.

Forward Collision-Avoidance Assist with Junction Turning (FCA-JT)

Sensing the road with radar and a camera, the system automatically brakes when it detects sudden braking by the car ahead, or pedestrians and bikes on the road. When turning left at an intersection, it brakes if there is a risk of collision with an oncoming vehicle. Available on all trims other than Advance.

Intelligent Speed Limit Assist (ISLA)

Alerts you with audio and visual warnings when you exceed the speed limit. When combined with the manual speed limiter or Smart Cruise Control, ISLA can even adapt the speed automatically.

Advanced Driver Assistance System (ADAS) is designed to provide assistance with the operation of a vehicle, drivers must drive with caution at all times. Functions may not operate depending on the surroundings and driving conditions. Refer to the instruction manual for details. Actual specifications may vary depending on the trim, powertrain and specifications selected.

Driver Attention Warning (DAW)

When a pattern of fatigue or distraction is identified, the system gets your attention with an alert and pop-up message suggesting a break.

Performance perfected.

The cockpit of the new i30 N Line invites you to drive dynamically with its exclusive extras, a grippy sports steering wheel and supportive metal pedals.

Leather N Line steering wheel

The N Line steering wheel combines comfort and control with the elegance of perforated leather.

N Line sports seats

The high-performance N Line sports seats keep you in control and are comfortable, with power lumbar support and extendable seat cushions. Only available on N-Line S trim.

Red accent stitching

The red contrast stitching on the seats, steering wheel, gearshift and centre console underscores the exclusive design of the N Line.

Turn heads with every colour.

With a spectrum of striking colours, your car will stand out on every journey. Each hue is designed to catch the eye and leave a lasting impression.

Driven by your personality.

Discover the freedom to make your car uniquely yours with a range of personalisation options. Choose from an array of colors, custom interiors, and distinctive wheels, each detail thoughtfully designed to match your individual style and preferences.

Style at every turn.

With precision engineering and elegant style, each wheel is crafted to enhance both performance and aesthetics.
